Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Supplement 03 to Final MND Big River Restoration Proposition 40 River Parkways Grant Project

Lead Agency: California Department of Parks and Recreation

Contact Name: Terra Fuller

Email: Terra.Fuller@parks.ca.gov Phone Number: (707)937-3689

Project Location: Mendocino *City* Mendocino *County*

Project Description (Proposed actions, location, and/or consequences).

The California Department of Recreation (DPR) proposes watershed restoration along the M1 and F1 road networks. The project will correct erosion and sedimentation problems, improve stream crossings along roads, remove logging roads, reduce sedimentation and restore pre- disturbance hydrologic processes within the Big River unit of Mendocino Headlands State Park.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Construction noise from restoration work could potentially impact federal and state listed species; such as, northern spotted owls and marbled murrelets. Mitigation measures are outlined in the MND and include pre-project surveys for avoidance or working outside of the critical nesting season.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The original MND had comment letters submitted regarding re-vegetation, continued road access use for adjacent property owners for commercial timber-hauling, and restoration of the quarry. Supplement 01 and 02 had no known comments.

Provide a list of the responsible or trustee agencies for the project.
