Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Truckee River Legacy Trail Phase 4

Lead Agency: Town of Truckee

Contact Name: Jessica Thompson

Email: JThompson@townoftruckee.com Phone Number: (530) 582-2938

Project Location: Town of Truckee (Nevada County) & Unincorporated Placer County
City *County*

Project Decription (Proposed actions, location, and/or consequences).

The project would develop Phase 4 of the Truckee River Legacy Trail from Palisades Drive/Brockway Road to the SR89/ West River Street intersection along the south side of the Truckee River. When completed, the project would feature approximately 1.9 miles of Class 1 (paved) bikeway and multi-use trail between the Truckee River Regional Park (Brockway Road and Palisades Drive intersection) and SR 89 South (by West River Street). This section of the Truckee River Legacy Trail would cross both public and private property and would include an approximately 400-foot bridge across the Truckee River. The project also includes a trailhead parking lot, public restroom, and a kiosk on West River Street near the intersection of Highway 89 South. A public river access area will be improved just east of the Donner Creek Bridge on West River Street. Drainage crossings would have open bottom culverts, bridges, or similar structures to avoid impacts to the streams and river channels. Soft surface trails are also included in the project to connect the Legacy Trail to existing soft surface trail systems in adjacent neighborhoods.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Aesthetics: Mitigation Measure AES-1
Air Quality: Mitigation Measure AIR-1
Biological Resources: Mitigation Measures BIO-1 through BIO-10
Cultural Resources: Mitigation Measures CLT-1 through CLT-4
Geological Resources: Mitigation Measures GEO-1 through GEO-2
Hydrological Resources: Mitigation Measures HYD-1 through HYD-3
Noise: Mitigation Measures NOISE-1 through NOISE-2

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Biological Resources; Cultural Resources: Geotechnical; Hydrology and Water Quality.

Provide a list of the responsible or trustee agencies for the project.

Placer County; California Department of Fish and Game; California Department of Transportation (Caltrans); Northern Sierra Air Quality Management District (NSAQMD); Regional Water Quality Control Board, Lahontan Region;Tahoe-Truckee Sanitation Agency; Truckee-Donner Public Utilities District; U.S. Department of Interior, Fish & Wildlife Service; U.S. Army Corps of Engineers; U.S. Forest Service.
