Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Innovative Barracuda Chassis Depot

Lead Agency: City of Los Angeles Harbor Department

Contact Name: Leah Kohler

Email: LKohler@portla.org Phone Number: (310) 732-3675

Project Location: San Pedro (*City*) Los Angeles (*County*)

Project Description (Proposed actions, location, and/or consequences).

The proposed Project involves an approximately 6.2-acre expansion of an existing approximately 7-acre property on Terminal Island in the Port of Los Angeles (Port). The approximately 7-acre property is currently operated as a chassis yard that provides storage, maintenance, and repair of chassis. The facility would be operated by Innovative Terminal Services, Inc. (Innovative). Innovative proposes to acquire a Term Permit to operate and expand the property to a total of approximately 13.2 acres. Expansion of the site would allow the chassis yard to serve as a chassis depot, which would provide the same existing activities in addition to a new stop/start function. The stop/start functionality would allow truckers to pick up and drop off chassis. This involves renting and returning chassis on a regular basis. Due to this new stop/start function, both truck traffic and the facility's hours of operation would increase. The proposed Project site is located on 915 Earle Street, San Pedro, on Terminal Island. It is bounded by Earle Street to the east, Barracuda Street to the west, Bass Street to the south, and Cannery Street to the north.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No significant impacts or mitigation measures have been identified.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The proposed Project has no known areas of controversy or issues raised by agencies or the public.

Provide a list of the responsible or trustee agencies for the project.
