Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Inderkum High School Softball Fields

Lead Agency: Natomas Unified School District

Contact Name: Jennifer Mellor

Email: jmellor@natomasunified.org Phone Number: (916) 567-5468

Project Location: Sacramento (*City*) Sacramento (*County*)

Project Description (Proposed actions, location, and/or consequences).

The softball fields at the existing Inderkum High School campus is within close proximity to the baseball fields, creating conflicts when both types of sports fields need to be in use at the same time. Therefore, the District proposes to discontinue use of the softball fields at the existing campus, and install two new softball fields on District-owned property on the west side of Via Ingoglia, across the street (to the west) from the existing Inderkum High School campus. The property would be fenced.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The IS/MND identified potentially significant impacts to Air Quality, Biological Resources, Cultural Resources, Geology and Soils, and Tribal Cultural Resources. Mitigation measures are included to reduce all potentially significant impacts to less than significant:

Mitigation Measure 3.3-1: Implement the SMAQMD Basic Construction Emission Control Practices; Mitigation Measure 3.4-1: Conduct Preconstruction Surveys for Migratory Birds and Raptors; Mitigation Measure 3.4-2: Compensate for Loss of Waters of the State; Mitigation Measure 3.4-3: Avoid and Minimize Indirect Impacts to State-protected Wetlands During Construction Activities; Mitigation Measure 3.5-1: Unanticipated Discovery of Archaeological Resources; Mitigation Measure 3.7-1: Unanticipated Discovery of Paleontological Resources; Mitigation Measure 3.18-1: Worker Training; Mitigation Measure 3.18-2: Procedures for Inadvertent Discovery of Cultural or Tribal Cultural Resources; Mitigation Measure 3.18-3: Construction Monitoring

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy exist.

Provide a list of the responsible or trustee agencies for the project.

California Department of Education/Division of State Architect
California Regional Water Quality Board
California Department of Fish and Wildlife
California Department of Toxic Substances Control
