Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Lompico Water Tanks Replacement Project

Lead Agency: San Lorenzo Valley Water District

Contact Name: Rick Rogers

Email: rrogers@slvwd.com Phone Number: 831-430-4624

Project Location: Lompico (*City*) Santa Cruz County (*County*)

Project Decription (Proposed actions, location, and/or consequences).

The Lompico Water Tanks Replacement Project is located in three separate locations in Lompico, 11 miles north of the City of Santa Cruz in Santa Cruz County, California. The Kaski tank site is located on a 1.05-acre parcel approximately 750 feet northwest of the terminus of Tromba Road (Assessor's Parcel Number [APN] 074-261-09). The Lewis tank site is located on a 0.2-acre parcel approximately 1,200 feet southwest of the intersection of Vera Avenue and West Drive (APN: 075-311-06). The Madrone tank site is located on two parcels, both 0.5-acres in size, approximately 650 feet northwest of the intersection of Madrone Avenue and Whilaway Avenue (APNs: 075-075-14 and 075-073-15).
The project consists of replacing the existing water storage tanks, including the installation of a chain link security fence and pavement within boundaries of the fencing. The Santa Cruz County General Plan designates the Kaski and Lewis tank sites as Mountain Residential("R-M") and the Madrone tank site as Rural Residential (RR). The Kaski and Madrone sites are zoned Single Family Residential, 15,000 square feet to one-acre lot size (R-1-15), and the Lewis Tank site is zoned Special Use (SU).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potentially significant effects were identified in the areas of biological resources, cultural resources, and noise. With implementation of the Mitigation Measures below, impacts would be mitigated to a less than significant level and the proposed project will not result in any significant impacts.
Mitigation Measure (MM) BIO 1: Employee Education Program MM BIO 2: Pre-construction report; MM BIO 3: San Francisco Dusky-Footed Woodrat avoidance measures; MM BIO 4: Biological Monitor; MM BIO 5: Nesting raptors and other nesting birds avoidance measures; MM BIO 6: Mount Hermon June Beetle avoidance measures; MM CUL 4.5-1: Discovery of archaeological resources/human remains procedure; MM CUL 4.5-2: Notification of County Coroner if human remains are discovered; MM NOISE 4.12-1: Construction Noise Control Plan

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

Regional Water Quality Control Board
California Department of Fish and Wildlife
Monterey Bay Air Resources Board
