Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Crabtree Road over Dry Creek Bridge (38C-0009) Replacement Project

Lead Agency: Stanislaus County, Public Works Department

Contact Name: Mr. Earl Seaberg, Project Manager

Email: seaberge@stancounty.com Phone Number: 209/ 525-4138

Project Location: Crabtree Road approximately 10 miles northeast of the City of Waterford, Stanislaus County

City *County*

Project Decription (Proposed actions, location, and/or consequences).

Stanislaus County would construct a replacement bridge on a new, upstream alignment that would span Dry Creek and correct roadway geometry issues within the project area. The new alignment eliminates the non-standard curve on the north side of the bridge and will be consistent with County standards and the Association of State Highway and Transportation Officials guidelines. A detailed project description is included in Section 3 of the environmental document. This Project is identified in the County Capital Improvement Program as Project # 2011.003. A detailed project description is included in Section A of the environmental document.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Project could have potentially significant impacts the following resource categories: aesthetics and biological resources.

AGRICULTURAL AND FORESTRY RESOURCES
Implementation of mitigation measure AG-1 will reduce potential impacts to less than significant for agricultural and forestry resource impact topic: b (conflict with existing zoning or Williamson Act Contract).

BIOLOGICAL RESOURCES
Implementation of mitigation measures BIO-1 through BIO-8 will reduce potential impacts to less than significant for biological resource impact topics: a (sensitive species), b (sensitive natural community), and c (wetland and waters).

GEOLOGY AND SOILS
Implementation of mitigation measure PALEO-1will reduce potential impacts to less than significant for geology and soils impact topic: f (paleontological resources)

HAZARDS and HAZARDOUS MATERIALS
Implementation of mitigation measures HAZ-1, HAZ-2, and HAZ-3 will reduce potential impacts to less than significant for hazards and hazardous materials impact topic: b (reasonably foreseeable upset and accident conditions)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

NA

Provide a list of the responsible or trustee agencies for the project.

Responsible Agencies
-Caltrans
-Central Valley Regional Water Quality Control Board

Trustee Agencies:
-California Department of Fish and Wildlife
