Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) has prepared this Initial Study (IS) with Proposed Negative Declaration (ND) for the State Route (SR) 29 Bridge Rail Replacement Project in Napa County, California (the Project). Caltrans proposes to replace the existing bridge rails on Dry Creek Bridge (Bridge ID 21-0014) at PM 16.48, Perfume Creek Bridge (Bridge ID 21-0051) at PM 17.81, and California Drive Undercrossing Bridge (Bridge ID 21-0047) at PM 19.04 on SR 29 in Napa County to meet current crash and safety standards. Work on Dry Creek Bridge and Perfume Creek Bridge would include reconstructing or extending wing walls, while work on California Drive Undercrossing Bridge would include retaining wall replacement.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Project would have less than significant effects on the environment; therefore, no mitigation measures are proposed.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are currently no areas of controversy known to Caltrans.

Provide a list of the responsible or trustee agencies for the project.
