- ☐ Other: _____

Present Land Use/Zoning/General Plan Designation:

Private property, lands owned by the District, and lands administered by the U.S. Forest Service

Project Description: *(please use a separate page if necessary)*

The project will replace approximately 6 miles of existing deteriorated pipeline with a 12 to 24-inch concrete mortar steel pipeline. The project will upgrade the existing raw water system to a treated potable water conveyance system. Drinking water would be conveyed by gravity from Reservoir 1 to Reservoir A treatment plant and a new pump station with backup power supply generator would be constructed at the Reservoir A facility to convey drinking water from Reservoir A to Reservoir 1.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "**X**".
If you have already sent your document to the agency please denote that with an "**S**".
