PROJECT TITLE: Campground Emergency Revetment Repair
LOCATION: San Elijo State Beach
COUNTY: San Diego

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: The project involved reconstructing a rock revetment that had been severely damaged during 2022 winter storms and the land behind it was eroding at a rapid rate. The rock revetment was built to protect the shoreline and the San Elijo SB campground behind it. The reconstruction involved using existing armor rock and importing approximately 1900 tons of armor rock and 1000 tons of beach cobble. The approximately 240-foot long by 30-foot wide revetment was placed adjacent to the newly eroded shoreline. The rebuilt revetment fit within a similar size of the previous revetment and the beach cobble was used to rebuild the public and emergency access ramp.

Measures to be implemented to avoid and/or minimize impact may be obtained by submitting a request to the project Environmental Coordinator listed below.

PUBLIC AGENCY APPROVING THE PROJECT: California Department of Parks and Recreation

NAME OF DIVISION OR DISTRICT CARRYING OUT THE PROJECT: San Diego Coast District
