Applicant Name	**Address**	**Telephone**

Project Location: The project is located over the Sacramento River between the cities of Sacramento and West Sacramento, approximately 1,000 feet north of the existing I Street Bridge. The total length of the project is approximately 0.42 mile (2,200 feet) along C Street and Railyards Boulevard.

County: Sacramento

Project Description: The proposed project would construct a new bridge over the Sacramento River between Sacramento and West Sacramento to replace the vehicular crossing that is provided by the existing I Street Bridge. The project would facilitate vehicular and multimodal traffic over the river in order to reduce traffic congestion, improve safety, and remove a number of structurally deficient or functionally obsolete bridges that have reached the limit of their design life. While the existing I Street Bridge over the Sacramento River would remain in place and continue to be used for railroad operations, the approach structures leading up to the bridge from both directions would be demolished.

This is to advise that the City of Sacramento, City Council has approved the above described project on June 25, 2019 and has made the following determination regarding the above described project:

1. The project in its approved form will have a significant effect on the environment.
2. An Environmental Impact Report was prepared and certified for this pursuant to the provisions of CEQA.
3. Mitigation Measures were made a condition of the approval of the project.
4. A Mitigation Monitoring Plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the CEQA section 15091.

Governor's Office of Planning & Research
