Project Title: Moshkelani Vineyard Conversion Agricultural Erosion Control Plan #P21-00331

Lead Agency: County of Napa

Contact Name: Dana Morrison, Supervising Planner

Email: dana.morrison@countyofnapa.org Phone Number: 707 253 4437

Project Location: 805 Green Field Road ,St. Helena Napa County

City *County*

Project Description (Proposed actions, location, and/or consequences).

see attached: 00_OPR NOC - Project Description_P21-00331

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation Measures are required to ensure there are no significant impacts to biological resources and surface water. The proposed project meets County setback requirements from water resources, however, mitigation measures are proposed to ensure less than significant impacts to: western pond turtles, nesting birds, and bats. The project proposes to utilize existing surface water rights however, one of the proposed vineyard blocks is located outside of the place of use identified in the water rights permit. As such, to ensure there is no significant impact to surface water the applicant will need to either apply to the state to revise the place of use map and the water rights permit to include the applicable vineyard block, or will need to revise the proposed ECPA plan set to remove the proposed vineyard block from the scope of work. With inclusion of these mitigation measures the projects impacts to Biological Resources and Surface Water would be less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The proposed project is located within a Sensitive Domestic Drainage - Lake Hennessey. The local water purveyor was contacted and did not raise issues or concerns with the project as proposed.

Provide a list of the responsible or trustee agencies for the project.
