Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: San Miguel Wastewater Treatment Plant Upgrade and Expansion Project

Lead Agency: San Miguel Community Services District

Contact Name: Kelly Dodds

Email: kelly.dodds@sanmiguelcsd.org Phone Number: 805-467-3388

Project Location: San Miguel, CA San Luis Obispo County

City *County*

Project Description (Proposed actions, location, and/or consequences).

The San Miguel Community Services District, acting as the Lead Agency under the California Environmental Quality Act (CEQA), intends to adopt a Mitigated Negative Declaration at its regular meeting on July 28, 2022 for the San Miguel Wastewater Treatment Plan Upgrade/ Expansion Project (Project). The District's primary purposes for the project are to provide adequate wastewater service for the community of San Miguel through 2050 and to meet regulatory requirements. The need for the project is driven by the Central Coast RWQCB's existing and anticipated WDRs (including WDR Order No. 99-046) and forecast population growth within San Miguel. Although there are differing projections for total community growth based on the CPU and Final EIR or by the District's own estimate, the contemplated growth in both cases is greater than the existing WWTF capacity.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project does not have any significant or potentially significant effects with the proposed mitigation measures, described in the MND:
MM AES-1: Exterior building materials shall be of a non-glare and non-reflective finish. MM BIO-1: Updated Special-Status Plant Surveys. MM BIO-2: Pre-Construction Nesting Bird Survey and Nest Avoidance. MM BIO-3: Least Bell's Vireo Protocol Surveys. MM BIO-4: San Joaquin Kit Fox Compensatory Habitat Mitigation. MM BIO-5: Pre-Construction San Joaquin Kit Fox Survey and Kit Fox Avoidance. MM BIO-6: Biological Monitoring. MM BIO-7: Worker Environmental Awareness Program (WEAP). MM BIO-8: Additional Construction Measures. MM-CUL-1: Cultural Resource Monitoring and Inadvertent Discovery Plan. MM-CUL-2: Workers Environmental Awareness Program (WEAP) Training. MM-CUL-3: Archaeological Construction Monitoring. MM-CUL-4: Inadvertent Discovery of Archaeological Resources. MM-CUL-5: Inadvertent Discovery of Human Remains. MM-GEO-1 : Paleontological Resource Construction Monitoring. Fossil Salvage. MM-HYD-1: Frac-Out Contingency Plan. MM-HYD-2a: Stormwater Quality. MM-HYD-2b: Runoff Retention. MM-LU-1: Conditional Use Permit. MM-REC-1 : Construct Project East of Existing Trails.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

See areas of controversy discussed in the Environmental Assessment.

Provide a list of the responsible or trustee agencies for the project.
