One Vacancy

Date: July 30, 2021
To: Interested Parties
From: Sarah Allen, Assistant Planning Director, City of Lafayette
Subject: Notice of Preparation of a Draft Environmental Impact Report for the City of Lafayette 6th Cycle Housing Element Update and Announcement of a Public Scoping Meeting

PUBLIC COMMENT PERIOD: August 2, 2021 – September 2, 2021
PUBLIC SCOPING MEETING: August 16, 2021, Planning Commission

Notice of Preparation

The City of Lafayette will be the Lead Agency to prepare an Environmental Impact Report (EIR) for the City of Lafayette 6th Cycle Housing Element Update (herein after referred to as the "proposed project") in compliance with the requirements of the California Environmental Quality Act (CEQA). Pursuant to CEQA, the Lead Agency (City of Lafayette) must issue a Notice of Preparation (NOP) to inform trustee and local agencies, as well as the public, that an EIR is being prepared, and to seek input on the scope and content of the EIR. Any agencies with jurisdiction over the proposed action will need to use the EIR prepared by the City when considering their own approval action and should comment on information germane to the agency's statutory responsibilities. The EIR will evaluate the potential environmental impacts of the proposed project and recommend mitigation measures for any significant impact, as required. No Initial Study has been prepared. Please send comments on the scope of the EIR to the address shown at the end of this Notice. Due to the time limits mandated by State law, your response must be sent at the earliest possible date, but not later than 30 days after the commencement of the comment period noted above.

Project Location

The City of Lafayette is located in the San Francisco Bay Area in the East Bay Region, approximately 22 miles east of downtown San Francisco and about four miles west of Walnut Creek (latitude 33º53'31"N, longitude 122º07'07"W). The City was incorporated in 1968, and encompasses approximately 15 square miles with a population of about 26,000 people. The City boundaries and regional location of the City are shown in **Figure 1**. The geographic extent of environmental analysis included in the EIR for the proposed project will be the City limits.

The City includes approximately 10,000 residential dwelling units and an active downtown with a small-town character. Lafayette is noted for its high quality of life with top rated schools, low crime rate, clean air, mild climate, and oak tree-studded hills. The City is located between Berkeley and Walnut Creek, has its own Bay Area Rapid Transit (BART) station, and is only a 25-minute BART ride from San Francisco. The City's predominant land use is residential; the City also maintains parks within the City limits and is home to the 1,054-acre Lafayette Reservoir Recreational Area, which is maintained by the East Bay

3675 Mount Diablo Boulevard, Suite 210, Lafayette, CA 94549
Phone: 925.284.1968 Fax: 925.284.3169
www.ci.lafayette.ca.us

Municipal Utilities District (EBMUD). The City also borders the 6,255-acre Briones Regional Park, which is managed by EBMUD.

State Route 24 (SR-24) passes through the middle of the City in an east-west direction. SR-24 is a major regional freeway that begins in Oakland and then passes through the Berkeley Hills via the Caldecott Tunnel before emerging near Orinda. The freeway then passes through Lafayette before merging with Interstate 680 (I-680) in Walnut Creek, east of Lafayette. SR-24 through Lafayette is generally configured as an eight-lane freeway, with four travel lanes in each direction and BART's Yellow Line (Antioch-SFO/Millbrae) occupying the freeway's median.

The City's downtown and principal commercial area lies south of SR-24, and generally lies alongside Mount Diablo Boulevard, which is an east-west roadway that roughly parallels SR-24. Areas lying north of SR-24 are predominately occupied by residential uses, though the extensive parking area for the Lafayette BART Station also lies north of the freeway. **Figure 2** shows the distribution of existing General Plan land use designations in the City, which roughly correspond to the distribution of existing land uses.

Project Background

Purpose of the Housing Element Update

State law requires the City to have and maintain a general plan with specific contents in order to provide a vision for the City's future, and inform local decisions about land use and development, including issues such as circulation, conservation, and safety. The City's current General Plan was adopted in 2002 and contains eight chapters or "elements," including one about housing.

The City is undertaking a community process to update its current General Plan, and expects the community engagement, planning, review, and approval process to take several years. In the interim, however, State law specifically requires the City to update the chapter or "element" of its General Plan regarding housing by January 31, 2023, while making any changes to other elements of the General Plan needed to maintain internal consistency, and undertaking related changes to the City's zoning ordinance. The Housing Element was last updated in 2015, and covers the "5th Cycle" housing element planning period from 2014 through 2022. Because this period is drawing to a close, State law [Government Code Section 65588] requires the City to update its Housing Element and provides a deadline of January 31, 2023. In accordance with State law, the planning period for the updated Housing Element will extend from January 31, 2023 to January 31, 2031.

In addition, California Assembly Bill (AB) 2923 from 2018 requires the City to up-zone BART-owned properties around its station to accommodate residential development at densities of at least 75 dwelling units per acre (du/ac) by July 2022.

In order to comply with these State mandates, the City is proposing to update its Housing Element in advance of the rest of the General Plan via the City of Lafayette 2023-2031 Housing Element Update (HEU), which will be the subject of the EIR that this NOP is addressing. The primary purpose of the HEU is to comply with the requirements of State law by analyzing existing and projected housing needs, and

updating goals, policies, objectives, and implementation programs for the preservation, improvement, and development of housing.

Regional Housing Needs Allocation

In addition to including goals, policies, and implementation programs regarding housing issues, housing elements must include an inventory or list of housing sites at sufficient densities to accommodate a specific number of units at various levels of affordability assigned to the City by the Association of Bay Area Governments (ABAG). This assignment is referred to as a Regional Housing Needs Allocation (RHNA).

The City's current Housing Element provides sites sufficient to accommodate the 2015 RHNA allocation of 400 units, along with a "buffer" of 392 units, meaning the current Housing Element identifies enough land zoned at appropriate densities to accommodate a total of 792 units.

A buffer is necessary to ensure that if one or more of the identified sites are developed at low densities or with non-housing uses, there is remaining capacity to ensure an ongoing supply of sites for housing during the eight-year-cycle of the Housing Element. If there were no buffer, then the City could be obliged to identify new sites and amend the Housing Element prior to the end of the cycle if an identified site were developed with a non-housing project or developed at a density less than that anticipated in the Housing Element.

The need for a substantial buffer is even more important during this cycle because of new rules in the Housing Accountability Act's "no net loss" provisions. SB 166 (2017) requires that the land inventory and site identification programs in the Housing Element always include sufficient sites to accommodate the unmet RHNA. This means that if a site identified in the Element as having the potential for housing development to accommodate the lower-income portion of the RHNA is actually developed for a higher income level, the locality must either: 1) identify and rezone, if necessary, an adequate substitute site; or 2) demonstrate that the land inventory already contains an adequate substitute site. An adequate buffer will be critical to ensuring that City remains compliant with these provisions.

On December 18, 2020, ABAG released its Draft Regional Housing Needs Assessment Methodology and Subregional Shares document (ABAG, 2020) which articulated ABAG's recommended methodology for the distribution of the regional housing need issued by the State Department of Housing and Community Development (HCD). HCD allocated 441,176 housing units to the nine-county Bay Area ("bulk allocation"). Based on the draft methodology, which has since been adopted and approved by HCD, Lafayette's Draft RHNA is 2,114 units, distributed among four income categories: very-low income, low income, moderate income and above moderate income.

Table 1 shows the Draft RHNA's breakdown of required units in the City across the four income categories.

TABLE 1
CITY OF LAFAYETTE DRAFT RHNA ALLOCATIONS BY INCOME CATEGORIES[a]

Income Group				
Very Low Income (VLI)	**Low Income (LI)**	**Moderate Income (MOD)**	**>Moderate Income (>MOD)**	**Total**
599	344	326	845	2,114

NOTES:

a The draft allocations are subject to change until finally adopted by the Association of Bay Area Governments (ABAG) in December 2021.

SOURCE: Staff Report to City Council and Planning Commission, *Housing Element Update, CEQA Review, and Draft Growth Scenarios*, November 30, 2020.

The figures in the table above are higher than in the past Housing Element in part because the region's bulk allocation of 441,176 units from the HCD is more than double the last Housing Element cycle's allocation, which was approximately 189,000 units.

The City is currently appealing its Draft RHNA allocation. The outcome of this appeal and the City's Final RHNA allocation will not be known until late in 2021, and the City has elected to initiate preparation of the HEU EIR using the draft allocation to allow ample time for analysis of various planning scenarios, community input, and environmental review.

Based on HCD and ABAG RHNA requirements, if the final RHNA remains at 2,114 units, this means that the City's HEU will identify housing sites for that many units plus a "buffer" of additional units at appropriate densities. The City will also need to rezone the identified sites if/as necessary to accommodate the new units and amend other elements of the General Plan (for example the Land Use and Safety Elements) as needed to ensure that the General Plan as a whole remains consistent with the HEU.

It's important to note that while the law requires the HEU to include an inventory of housing sites and requires the City to zone those sites for multifamily housing, the City is not required to actually develop housing on these sites. Future development on the identified sites will be up to the property owners and will be largely dependent on market forces and (in the case of affordable housing) available subsidies.

Requirements of AB 2923

AB 2923, adopted by the Legislature and signed by the Governor in 2018, requires local jurisdictions with BART stations to up-zone the land owned by BART around their stations to a minimum density of 75 dwelling units per acre (du/acre) by the deadline of July 1, 2022. In the case of Lafayette, BART owns approximately 11 acres of parking lots at the BART station north of SR-24 that are subject to this requirement. The HEU, with its inventory of housing sites, is intended to meet requirements of AB 2923.

Project Description

The HEU project analyzed in the EIR would include adoption of General Plan amendments that would add or modify goals, objectives, policies, and implementation programs related to housing that would apply citywide, and that would address the maintenance, preservation, improvement, and development of housing in the City.

In addition, as discussed above, the HEU would identify specific sites appropriate for the development of multifamily housing, and the City would rezone those sites if/as necessary to meet the requirements of State law. Both the existing and proposed sites that can accommodate development of multifamily housing are located in a subset of the City, mostly in areas within and around downtown. These areas appear in **Figure 3** as the "study areas" for the Housing Element's housing sites inventory, which is described in Section 3.5.1 below.

Based on the draft RHNA allocations, the HEU will need to plan for at least an additional 2,114 dwelling units plus a "buffer" which has been initially identified at 50 percent or about 1,000 units for planning purposes. The EIR will likely evaluate a slightly higher buffer in order to consider a maximum build-out scenario for purposes of the CEQA evaluation. The final buffer size will be determined by the City Council upon adoption of the HEU. While the City may retain and reuse some sites in the current Housing Element that have not been built-upon, it is clear that Lafayette will also need to identify and rezone new sites not previously identified in order to meet the state mandates.

Study Areas for the Housing Sites Inventory

The HEU will include a housing sites inventory with sufficient existing and new housing sites at appropriate densities to meet the City's RHNA requirement plus an ample buffer, and to meet the requirements of AB 2923. To determine where these potential housing sties will be and what densities will be required, City planners have identified a number of subareas in the City where housing sites could potentially be located. These areas are numbered 1 through 9 and 13 in **Figure 3**, and are described below. (Note that Areas 10, 11, and 12 are no longer being considered pursuant to City Council direction).

Downtown (Areas 1 through 6)

The Downtown subarea generally lies astride Mount Diablo Boulevard, and is comprised of that portion of the City that is a part of the Downtown Specific Plan (DSP) and several peripheral areas. The City's principal commercial uses are located in this area, with some residential uses scattered within. This subarea contains a number of existing zoning designations, many of which are designated to accommodate multi-family housing in conjunction with commercial uses. Most of the Downtown area's zoning designations, for instance, allow residential dwelling units on upper floors above commercial uses.

BART Properties and Adjoining Parcels (Area 7)

This subarea is located north of SR-24 and is comprised of the parking lots for the Lafayette BART Station and several adjoining parcels lying east of the parking lots. The two BART-owned parking lot parcels are bisected in a north-south direction by Oak Hill Road. These parcels are currently zoned R-10. The R-10 zoning designation provides for single-family residences on lots with a minimum lot size of 10,000 square feet, with second units allowed with an accessory dwelling unit (ADU) permit.

Deer Hill Road Corridor (Area 8)

This subarea includes a series of parcels generally lying north of SR-24 and Deer Hill Road, along with a number of additional parcels lying further to the west. This area is almost wholly developed with residential uses. This subarea contains several existing zoning designations, many of which are designated to accommodate varying densities of residential housing.

DeSilva Sites (Area 9)

This subarea is located near the western end of Mount Diablo Boulevard, and is comprised of the several parcels lying west and south of Mount Diablo Boulevard adjacent to and across from the Oakwood Athletic Club. The parcels west of the Athletic Club are zoned MRA (a multi-family designation) and LR-10 (a single-family residential designation with a minimum lot size of 10 acres), with the MRA-designated parcel currently occupied with multi-family residential housing. The parcels lying south of Mount Diablo Boulevard across from the Athletic Club are currently vacant and are zoned LR-10.

Dewing/Brook/Rosedale (Area 13)

This subarea is located south of Downtown and is almost wholly comprised of existing residential uses at varying densities.

Distribution of Housing Sites

Various possible distributions of housing sites and densities in the study areas described above have been and will be considered for inclusion in the HEU by the community, planning staff, the Planning Commission, and the City Council. The Distributed Sites approach represents the "Project" that will be analyzed in the EIR, and a Downtown-Only approach will be analyzed as an alternative at an equal level of detail in the EIR in order to assess the impacts of the HEU if all of the housing sites were located in that area.

The **Project with Distributed Sites** and the **Downtown-Only Alternative**, each identify specific sites that could be included in the Housing Sites Inventory and rezoned to accommodate multi-family housing development at various densities in order to meet the project objectives. The two approaches share some features as follows:

- To be conservative, both approaches include sites and densities sufficient to meet the draft RHNA of 2,114 plus an initial buffer of around 60 percent to consider a maximum build-out scenario for purposes of CEQA evaluation. The final buffer size will be determined by the City Council upon adoption of the HEU.
- Both approaches include sites in the Downtown area that are identified in the City's current Housing Element that have not yet been redeveloped.
- Both approaches include the assumption that continued development of individual Accessory Dwelling Units (ADUs) in residential neighborhoods throughout the City will yield an estimated 240 dwelling units over the life of the new Housing Element.
- Both approaches include sites at densities substantially above 20 dwelling units per acre, which is the minimum density "deemed appropriate" in State law to accommodate housing for lower income households in a city of Lafayette's size (Government Code Section 65583.2(c)(3)(B)).
- Both approaches assume that the number of units that could be accommodated on each residentially zoned site is somewhat less than 100 percent of the maximum "mathematical capacity" of the site, instead assuming approximately 85 percent.[1]

[1] This is consistent with City staff's research of housing developments in the City over the last decade or so, which demonstrates that new multi-family projects in the downtown have, on average, built out at 85 percent of the maximum mathematical

- Pursuant to the direction contained within the Downtown Specific plan adopted in 2012, both approaches assume that sites along Mount Diablo Boulevard would include ground floor commercial space and therefore would accommodate approximately 75 percent of their theoretical residential capacity.

Again, it is important to note that the identification of housing sites in the City's Housing Element does not mean that the City or someone else will necessarily develop housing on those sites at the planned unit count or level of affordability. Instead, the identification of housing sites is intended to plan for and encourage housing, but its development by property owners and developers is largely dependent on market forces and (in the case of affordable housing) available subsidies.

Project with Distributed Sites

The Distributed Sites approach would accommodate growth by including sites throughout the Downtown (though at lower densities than the Downtown Only Alternative, below), the BART sites, the Deer Hill Road corridor, the neighborhoods adjacent to and immediately south of the Downtown Core Area, plus the DeSilva Sites at the west end of Mount Diablo Boulevard (collectively, all of the areas shown in **Figure 3**).

Sites included in the City's existing Housing Element that have not been developed would be retained, and allowable densities on these sites would be increased. New sites would be identified in Downtown and planned for similar densities, and aside from the BART site, which would allow 75 units per acre consistent with AB 2923, no sites would allow densities higher than 50 units per acre. Sites in the Deer Hill Corridor (Area 8) and the DeSilva Sites (Area 9) would be limited to 20 units per acre, and the Dewing/Brook/Rosedale area (Area 13) would remain at its existing density of 35 units per acre. Sites included in the Project with Distributed Sites are shown in **Figure 3** and summarized below in **Table 2**. Note that these figures are based on initial assumptions made to study the breadth of potential impacts. The densities are preliminary and are subject to refinement as the process moves forward.

Downtown-Only Alternative

The Downtown-Only Alternative would accommodate almost all of the HEU's growth within the existing limits of the Downtown commercial districts (areas 1 through 6 in **Figure 3**). To do this, sites included in the City's existing Housing Element that have not been developed would be retained, additional sites would be added, and allowable densities would increase from 35 units per acre to approximately 115 units per acre. If more sites in the Downtown are added to the inventory, it could be expected that the maximum density needed to accommodate the units would be reduced from 115 units per acre. The planning areas encompassed by the Downtown Only Alternative are shown in **Figure 4**, and summarized in **Table 3**, below. Note that these figures are based on initial assumptions made to study the breadth of potential impacts. The densities are preliminary and are subject to refinement as the process moves forward.

capacity and have not taken advantage of State density bonuses. This is largely a function of the fact that portions of any given development parcel must be used to accommodate non-housing components such as parking and circulation features, setbacks, common areas, and the like.

TABLE 2
PROJECT WITH DISTRIBUTED SITES

Area Name	Sites Acreage[a]	Existing Zoning	Allowable Density		Unit Yield[b]
			Existing	Proposed	
1. Downtown West End (north)	5.29	MRA, C, P-1	35	50	198
2. Downtown West End (south)	2.75	C	35	50	103
3. Downtown Core (north)	4.73	RB, SRB, P-1	35	50	177
4. Downtown Core (south)	0.78	RB, SRB, P-1	35	50	29
5. Downtown East End (north)	12.53	C-1	35	50	470
6. Downtown East End (south)	4.19	C-1	35	50	157
7. BART	13.04	R-10	4	75	831
8. Deer Hill Corridor	17.85	R-10, R-20, D-1, P-1	4, 2	20	303
9. DeSilva Sites	18.0	LR-10, MRA	0.1, 4	20	306
13.[c] Dewing/Brook/Rosedale	4.64	MRA, MRO, P-1, MRT, R-10	35	35	138
				Total Units	2,714
				Scattered Sites[d]	642
				Total Inventory	3,356
				Effective Buffer	59 %

NOTES:

a. The estimated combined acreage of opportunity parcels identified as of April 26, 2021within each sub-area as shown in Figure 3.
b. Assumes parcels would be built out at 85 percent of the maximum mathematical capacity and 75% for parcels fronting Mt. Diablo Blvd.
c. Areas 10, 11, and 12 are no longer being considered pursuant to City Council direction on April 26, 2021
d. Scattered sites includes anticipated Citywide development of single-family units, anticipated accessory dwelling units, and known opportunity sites outside of the study areas.

SOURCE: City of Lafayette, July 2021

TABLE 3
DOWNTOWN ONLY ALTERNATIVE

Area Name	Opportunity Sites Acreage[a]	Existing Zoning	Allowable Density		Unit Yield[b]
			Existing	Proposed	
1. Downtown West End (north)	5.29	MRA, C, P-1	35	115	456
2. Downtown West End (south)	2.75	C	35	115	237
3. Downtown Core (north)	4.73	RB, SRB, P-1	35	115	408
4. Downtown Core (south)	0.78	RB, SRB, P-1	35	115	67
5. Downtown East End (north)	12.53	C-1	35	115	1,081
6. Downtown East End (south)	4.1	C-1	35	115	361
				Total Units	2,611
				Scattered Sites[c]	782
				Total Inventory	3,393
				Effective Buffer	61 %

NOTES:

a. The estimated combined acreage of opportunity parcels identified as of April 26, 2021within each sub-area as shown in Figure 3.
b. Assumes parcels would be built out at 85 percent of the maximum mathematical capacity and 75% for parcels fronting Mt. Diablo Blvd.
c. Scattered sites includes anticipated Citywide development of single-family units, anticipated accessory dwelling units, and known opportunity sites outside of the study areas.

SOURCE: City of Lafayette, July 2021

As shown in **Table 3**, approximately half of the total of 2,611 units would be accommodated on sites at the east end of Downtown (Areas 5 and 6) based on currently identified opportunity sites, with the remainder spread throughout Areas 1 through 4. All of the sites would be located south of the freeway, and the BART site and the Deer Hill parcels north of the freeway would not be rezoned.

Potential Environmental Effects of the Housing Element Update

The environmental analyses and technical sections presented in the Draft EIR will describe the existing conditions in the City. Relevant federal, State, and local laws and regulations, including the current City of Lafayette General Plan goals and policies, will be summarized.

The methods of analysis and any assumptions that are important to understand the conclusions of the analysis will be described, along with the standards of significance used to determine impacts of the project. The standards for determining impact significance will be based on existing State and federal rules, regulations, and laws, City ordinances and policies, and past practices. The standards will be used to determine whether an impact is significant and for the effectiveness of recommended mitigation. Feasible mitigation measures will be identified for each significant impact. The description of mitigation measures will identify the specific actions to be taken, the timing of the action, and the parties responsible for implementation of the measure.

At this time, it is anticipated that the following issues/technical sections will be addressed in the EIR:

- Aesthetics/Light and Glare
- Air Quality
- Biological Resources
- Cultural Resources
- Geology/Soils
- Greenhouse Gas Emissions
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Land Use and Planning
- Noise and Vibration
- Population and Housing
- Public Services and Recreation
- Utilities and Service Systems
- Transportation
- Tribal Cultural Resources
- Wildfire

Alternatives

In order to provide a “range of reasonable alternatives” to the Housing Element Update, as required by CEQA Guidelines section 15126.6, the EIR will examine alternatives to the Project, including the required No Project Alternative and the Downtown-Only Alternative described above.

Public Scoping Meeting

The City of Lafayette is hosting a public scoping meeting during the NOP public comment period on **August 16, 2021** during a regularly scheduled Planning Commission Meeting beginning at **7:00pm** via teleconference (Zoom webinar).

To participate and/or listen to the meeting via the Zoom webinar, click **here**.

Webinar ID: 868 1806 5446
Passcode: 222609
Telephone: 1 669 900 9128
To view the meeting on YouTube, click **here**.

All interested parties are invited to attend and provide input on the scope of the EIR. Written comments should be provided via email to planner@lovelafayette.org or mailed to 3675 Mt. Diablo Boulevard, Suite 210, Lafayette, CA 94549.

Submitting Comments

Comments regarding the scope of the EIR analysis are invited from all interested parties to ensure the full range of project issues of interest are addressed. Written comments (emails are acceptable) concerning the EIR for the proposed project should be directed to Sarah Allen, Assistant Planning Director (contact information below) no later than **5:00 pm on September 2, 2021**. All comments will be considered during preparation of the Draft EIR, which will be circulated for public review, and comments received on the Draft EIR will also be considered and responded to prior to preparation of a Final EIR and consideration and approval of the HEU.

If you have any questions regarding the proposed Housing Element Update or the EIR process, please contact Sarah Allen at the contact information listed below.

Re: 2021080038, Lafayette 6th Cycle Housing Element Update Project, Contra Costa County

Dear Ms. Allen:

The Native American Heritage Commission (NAHC) has received the Notice of Preparation (NOP), Draft Environmental Impact Report (DEIR) or Early Consultation for the project referenced above. The California Environmental Quality Act (CEQA) (Pub. Resources Code §21000 et seq.), specifically Public Resources Code §21084.1, states that a project that may cause a substantial adverse change in the significance of a historical resource, is a project that may have a significant effect on the environment. (Pub. Resources Code § 21084.1; Cal. Code Regs., tit.14, §15064.5 (b) (CEQA Guidelines §15064.5 (b)). If there is substantial evidence, in light of the whole record before a lead agency, that a project may have a significant effect on the environment, an Environmental Impact Report (EIR) shall be prepared. (Pub. Resources Code §21080 (d); Cal. Code Regs., tit. 14, § 5064 subd.(a)(1) (CEQA Guidelines §15064 (a)(1)). In order to determine whether a project will cause a substantial adverse change in the significance of a historical resource, a lead agency will need to determine whether there are historical resources within the area of potential effect (APE).

CEQA was amended significantly in 2014. Assembly Bill 52 (Gatto, Chapter 532, Statutes of 2014) (AB 52) amended CEQA to create a separate category of cultural resources, "tribal cultural resources" (Pub. Resources Code §21074) and provides that a project with an effect that may cause a substantial adverse change in the significance of a tribal cultural resource is a project that may have a significant effect on the environment. (Pub. Resources Code §21084.2). Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource. (Pub. Resources Code §21084.3 (a)). **AB 52 applies to any project for which a notice of preparation, a notice of negative declaration, or a mitigated negative declaration is filed on or after July 1, 2015.** If your project involves the adoption of or amendment to a general plan or a specific plan, or the designation or proposed designation of open space, on or after March 1, 2005, it may also be subject to Senate Bill 18 (Burton, Chapter 905, Statutes of 2004) (SB 18). **Both SB 18 and AB 52 have tribal consultation requirements.** If your project is also subject to the federal National Environmental Policy Act (42 U.S.C. § 4321 et seq.) (NEPA), the tribal consultation requirements of Section 106 of the National Historic Preservation Act of 1966 (154 U.S.C. 300101, 36 C.F.R. §800 et seq.) may also apply.

The NAHC recommends consultation with California Native American tribes that are traditionally and culturally affiliated with the geographic area of your proposed project as early as possible in order to avoid inadvertent discoveries of Native American human remains and best protect tribal cultural resources. Below is a brief summary of portions of AB 52 and SB 18 as well as the NAHC's recommendations for conducting cultural resources assessments.

Consult your legal counsel about compliance with AB 52 and SB 18 as well as compliance with any other applicable laws.

AB 52

AB 52 has added to CEQA the additional requirements listed below, along with many other requirements:

1. Fourteen Day Period to Provide Notice of Completion of an Application/Decision to Undertake a Project: Within fourteen (14) days of determining that an application for a project is complete or of a decision by a public agency to undertake a project, a lead agency shall provide formal notification to a designated contact of, or tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, to be accomplished by at least one written notice that includes:

- **a.** A brief description of the project.
- **b.** The lead agency contact information.
- **c.** Notification that the California Native American tribe has 30 days to request consultation. (Pub. Resources Code §21080.3.1 (d)).
- **d.** A "California Native American tribe" is defined as a Native American tribe located in California that is on the contact list maintained by the NAHC for the purposes of Chapter 905 of Statutes of 2004 (SB 18). (Pub. Resources Code §21073).

2. Begin Consultation Within 30 Days of Receiving a Tribe's Request for Consultation and Before Releasing a Negative Declaration, Mitigated Negative Declaration, or Environmental Impact Report: A lead agency shall begin the consultation process within 30 days of receiving a request for consultation from a California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed project. (Pub. Resources Code §21080.3.1, subds. (d) and (e)) and prior to the release of a negative declaration, mitigated negative declaration or Environmental Impact Report. (Pub. Resources Code §21080.3.1(b)).

- **a.** For purposes of AB 52, "consultation shall have the same meaning as provided in Gov. Code §65352.4 (SB 18). (Pub. Resources Code §21080.3.1 (b)).

3. Mandatory Topics of Consultation If Requested by a Tribe: The following topics of consultation, if a tribe requests to discuss them, are mandatory topics of consultation:

- **a.** Alternatives to the project.
- **b.** Recommended mitigation measures.
- **c.** Significant effects. (Pub. Resources Code §21080.3.2 (a)).

4. Discretionary Topics of Consultation: The following topics are discretionary topics of consultation:

- **a.** Type of environmental review necessary.
- **b.** Significance of the tribal cultural resources.
- **c.** Significance of the project's impacts on tribal cultural resources.
- **d.** If necessary, project alternatives or appropriate measures for preservation or mitigation that the tribe may recommend to the lead agency. (Pub. Resources Code §21080.3.2 (a)).

5. Confidentiality of Information Submitted by a Tribe During the Environmental Review Process: With some exceptions, any information, including but not limited to, the location, description, and use of tribal cultural resources submitted by a California Native American tribe during the environmental review process shall not be included in the environmental document or otherwise disclosed by the lead agency or any other public agency to the public, consistent with Government Code §6254 (r) and §6254.10. Any information submitted by a California Native American tribe during the consultation or environmental review process shall be published in a confidential appendix to the environmental document unless the tribe that provided the information consents, in writing, to the disclosure of some or all of the information to the public. (Pub. Resources Code §21082.3 (c)(1)).

6. Discussion of Impacts to Tribal Cultural Resources in the Environmental Document: If a project may have a significant impact on a tribal cultural resource, the lead agency's environmental document shall discuss both of the following:

- **a.** Whether the proposed project has a significant impact on an identified tribal cultural resource.
- **b.** Whether feasible alternatives or mitigation measures, including those measures that may be agreed to pursuant to Public Resources Code §21082.3, subdivision (a), avoid or substantially lessen the impact on the identified tribal cultural resource. (Pub. Resources Code §21082.3 (b)).

7. Conclusion of Consultation: Consultation with a tribe shall be considered concluded when either of the following occurs:

a. The parties agree to measures to mitigate or avoid a significant effect, if a significant effect exists, on a tribal cultural resource; or

b. A party, acting in good faith and after reasonable effort, concludes that mutual agreement cannot be reached. (Pub. Resources Code §21080.3.2 (b)).

8. Recommending Mitigation Measures Agreed Upon in Consultation in the Environmental Document: Any mitigation measures agreed upon in the consultation conducted pursuant to Public Resources Code §21080.3.2 shall be recommended for inclusion in the environmental document and in an adopted mitigation monitoring and reporting program, if determined to avoid or lessen the impact pursuant to Public Resources Code §21082.3, subdivision (b), paragraph 2, and shall be fully enforceable. (Pub. Resources Code §21082.3 (a)).

9. Required Consideration of Feasible Mitigation: If mitigation measures recommended by the staff of the lead agency as a result of the consultation process are not included in the environmental document or if there are no agreed upon mitigation measures at the conclusion of consultation, or if consultation does not occur, and if substantial evidence demonstrates that a project will cause a significant effect to a tribal cultural resource, the lead agency shall consider feasible mitigation pursuant to Public Resources Code §21084.3 (b). (Pub. Resources Code §21082.3 (e)).

10. Examples of Mitigation Measures That, If Feasible, May Be Considered to Avoid or Minimize Significant Adverse Impacts to Tribal Cultural Resources:

a. Avoidance and preservation of the resources in place, including, but not limited to:

i. Planning and construction to avoid the resources and protect the cultural and natural context.

ii. Planning greenspace, parks, or other open space, to incorporate the resources with culturally appropriate protection and management criteria.

b. Treating the resource with culturally appropriate dignity, taking into account the tribal cultural values and meaning of the resource, including, but not limited to, the following:

i. Protecting the cultural character and integrity of the resource.

ii. Protecting the traditional use of the resource.

iii. Protecting the confidentiality of the resource.

c. Permanent conservation easements or other interests in real property, with culturally appropriate management criteria for the purposes of preserving or utilizing the resources or places.

d. Protecting the resource. (Pub. Resource Code §21084.3 (b)).

e. Please note that a federally recognized California Native American tribe or a non-federally recognized California Native American tribe that is on the contact list maintained by the NAHC to protect a California prehistoric, archaeological, cultural, spiritual, or ceremonial place may acquire and hold conservation easements if the conservation easement is voluntarily conveyed. (Civ. Code §815.3 (c)).

f. Please note that it is the policy of the state that Native American remains and associated grave artifacts shall be repatriated. (Pub. Resources Code §5097.991).

11. Prerequisites for Certifying an Environmental Impact Report or Adopting a Mitigated Negative Declaration or Negative Declaration with a Significant Impact on an Identified Tribal Cultural Resource: An Environmental Impact Report may not be certified, nor may a mitigated negative declaration or a negative declaration be adopted unless one of the following occurs:

a. The consultation process between the tribes and the lead agency has occurred as provided in Public Resources Code §21080.3.1 and §21080.3.2 and concluded pursuant to Public Resources Code §21080.3.2.

b. The tribe that requested consultation failed to provide comments to the lead agency or otherwise failed to engage in the consultation process.

c. The lead agency provided notice of the project to the tribe in compliance with Public Resources Code §21080.3.1 (d) and the tribe failed to request consultation within 30 days. (Pub. Resources Code §21082.3 (d)).

The NAHC's PowerPoint presentation titled, "Tribal Consultation Under AB 52: Requirements and Best Practices" may be found online at: http://nahc.ca.gov/wp-content/uploads/2015/10/AB52TribalConsultation_CalEPAPDF.pdf

SB 18

SB 18 applies to local governments and requires local governments to contact, provide notice to, refer plans to, and consult with tribes prior to the adoption or amendment of a general plan or a specific plan, or the designation of open space. (Gov. Code §65352.3). Local governments should consult the Governor's Office of Planning and Research's "Tribal Consultation Guidelines," which can be found online at: https://www.opr.ca.gov/docs/09_14_05_Updated_Guidelines_922.pdf.

Some of SB 18's provisions include:

1. Tribal Consultation: If a local government considers a proposal to adopt or amend a general plan or a specific plan, or to designate open space it is required to contact the appropriate tribes identified by the NAHC by requesting a "Tribal Consultation List." If a tribe, once contacted, requests consultation the local government must consult with the tribe on the plan proposal. **A tribe has 90 days from the date of receipt of notification to request consultation unless a shorter timeframe has been agreed to by the tribe.** (Gov. Code §65352.3 (a)(2)).
2. No Statutory Time Limit on SB 18 Tribal Consultation. There is no statutory time limit on SB 18 tribal consultation.
3. Confidentiality: Consistent with the guidelines developed and adopted by the Office of Planning and Research pursuant to Gov. Code §65040.2, the city or county shall protect the confidentiality of the information concerning the specific identity, location, character, and use of places, features and objects described in Public Resources Code §5097.9 and §5097.993 that are within the city's or county's jurisdiction. (Gov. Code §65352.3 (b)).
4. Conclusion of SB 18 Tribal Consultation: Consultation should be concluded at the point in which:
   - **a.** The parties to the consultation come to a mutual agreement concerning the appropriate measures for preservation or mitigation; or
   - **b.** Either the local government or the tribe, acting in good faith and after reasonable effort, concludes that mutual agreement cannot be reached concerning the appropriate measures of preservation or mitigation. (Tribal Consultation Guidelines, Governor's Office of Planning and Research (2005) at p. 18).

Agencies should be aware that neither AB 52 nor SB 18 precludes agencies from initiating tribal consultation with tribes that are traditionally and culturally affiliated with their jurisdictions before the timeframes provided in AB 52 and SB 18. For that reason, we urge you to continue to request Native American Tribal Contact Lists and "Sacred Lands File" searches from the NAHC. The request forms can be found online at: http://nahc.ca.gov/resources/forms/.

NAHC Recommendations for Cultural Resources Assessments

To adequately assess the existence and significance of tribal cultural resources and plan for avoidance, preservation in place, or barring both, mitigation of project-related impacts to tribal cultural resources, the NAHC recommends the following actions:

1. Contact the appropriate regional California Historical Research Information System (CHRIS) Center (http://ohp.parks.ca.gov/?page_id=1068) for an archaeological records search. The records search will determine:
   - **a.** If part or all of the APE has been previously surveyed for cultural resources.
   - **b.** If any known cultural resources have already been recorded on or adjacent to the APE.
   - **c.** If the probability is low, moderate, or high that cultural resources are located in the APE.
   - **d.** If a survey is required to determine whether previously unrecorded cultural resources are present.

2. If an archaeological inventory survey is required, the final stage is the preparation of a professional report detailing the findings and recommendations of the records search and field survey.
   - **a.** The final report containing site forms, site significance, and mitigation measures should be submitted immediately to the planning department. All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum and not be made available for public disclosure.
   - **b.** The final written report should be submitted within 3 months after work has been completed to the appropriate regional CHRIS center.

3. Contact the NAHC for:

a. A Sacred Lands File search. Remember that tribes do not always record their sacred sites in the Sacred Lands File, nor are they required to do so. A Sacred Lands File search is not a substitute for consultation with tribes that are traditionally and culturally affiliated with the geographic area of the project's APE.

b. A Native American Tribal Consultation List of appropriate tribes for consultation concerning the project site and to assist in planning for avoidance, preservation in place, or, failing both, mitigation measures.

4. Remember that the lack of surface evidence of archaeological resources (including tribal cultural resources) does not preclude their subsurface existence.

a. Lead agencies should include in their mitigation and monitoring reporting program plan provisions for the identification and evaluation of inadvertently discovered archaeological resources per Cal. Code Regs., tit. 14, §15064.5(f) (CEQA Guidelines §15064.5(f)). In areas of identified archaeological sensitivity, a certified archaeologist and a culturally affiliated Native American with knowledge of cultural resources should monitor all ground-disturbing activities.

b. Lead agencies should include in their mitigation and monitoring reporting program plans provisions for the disposition of recovered cultural items that are not burial associated in consultation with culturally affiliated Native Americans.

c. Lead agencies should include in their mitigation and monitoring reporting program plans provisions for the treatment and disposition of inadvertently discovered Native American human remains. Health and Safety Code §7050.5, Public Resources Code §5097.98, and Cal. Code Regs., tit. 14, §15064.5, subdivisions (d) and (e) (CEQA Guidelines §15064.5, subds. (d) and (e)) address the processes to be followed in the event of an inadvertent discovery of any Native American human remains and associated grave goods in a location other than a dedicated cemetery.

If you have any questions or need additional information, please contact me at my email address: Katy.Sanchez@nahc.ca.gov.

Sincerely,

Katy Sanchez

City of Lafayette
3675 Mount Diablo Boulevard, Suite 210
Lafayette, CA 94549

Re: City of Lafayette 6th Cycle Housing Element Update Notice of Preparation (NOP)

Dear Sarah Allen:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the City of Lafayette 6th Cycle Housing Element Update Project. We are committed to ensuring that impacts to the State's multimodal transportation system and to our natural environment are identified and mitigated to support a safe, sustainable, integrated and efficient transportation system. The following comments are based on our review of the August 2020 NOP.

Project Understanding
The project proposes to include the adoption of General Plan amendments that would add or modify goals, objectives, policies, and implementation programs related to housing that would apply citywide, and that would address the maintenance, preservation, improvement, and development of housing in the City. In addition, as discussed above, the project would identify specific sites appropriate for the development of multifamily housing. The project encompasses the entire City of Lafayette, located on State Route (SR)- 24 which passes through the middle of the City in an east-west direction.

Travel Demand Analysis
With the enactment of Senate Bill (SB) 743, Caltrans is focused on maximizing efficient development patterns, innovative travel demand reduction strategies, and multimodal improvements. For more information on how Caltrans assesses Transportation Impact Studies, please review Caltrans' Transportation Impact Study Guide.

If the project meets the screening criteria established in Lafayette's adopted Vehicle Miles Traveled (VMT) policy to be presumed to have a less-than-significant VMT impact and exempt from detailed VMT analysis, please provide justification to support the exempt status in align with the City's VMT policy. Projects that do not meet the screening criteria should include a detailed VMT analysis in the DEIR, which should include the following:

- VMT analysis pursuant to the City's guidelines or the Office of Planning and Research's (OPR) Technical Advisory. Projects that result in automobile VMT per capita above the threshold of significance for existing (i.e. baseline) city-wide or regional values for similar land use types may indicate a significant impact. If necessary, mitigation for increasing VMT should be identified. Mitigation should support the use of transit and active transportation modes. Potential mitigation measures that include the requirements of other agencies such as Caltrans are fully enforceable through permit conditions, agreements, or other legally-binding instruments under the control of the City.

- A schematic illustration of walking, biking and auto conditions at the project site and study area roadways. Potential safety issues for all road users should be identified and fully mitigated.

- The project's primary and secondary effects on pedestrians, bicycles, travelers with disabilities and transit performance should be evaluated, including countermeasures and trade-offs resulting from mitigating VMT increases. Access to pedestrians, bicycle, and transit facilities must be maintained.

- Clarification of the intensity of events/receptions to be held at the location and how the associated travel demand and VMT will be mitigated.

Mitigation Strategies
Location efficiency factors, including community design and regional accessibility, influence a project's impact on the environment. Using Caltrans' *Smart Mobility 2010: A Call to Action for the New Decade*, the proposed project site is identified as a Suburban Community Center where community design is moderate and regional accessibility is variable.

Given the place, type and size of the project, the Draft Environmental Impact Report (DEIR) should include a robust Transportation Demand Management (TDM) Program to reduce VMT and greenhouse gas emissions from future development in this area. The measures listed below have been quantified by California Air Pollution Control Officers Association (CAPCOA) and shown to have different efficiencies reducing regional VMT:

- Project design to encourage mode shift like walking, bicycling and transit access;
- Transit and trip planning resources such as a commute information kiosk;
- Real-time transit information systems;
- Transit access supporting infrastructure (including bus shelter improvements and sidewalk/ crosswalk safety facilities);
- New development vehicle parking reductions;
- Implementation of a neighborhood electric vehicle (EV) network, including designated parking spaces for EVs;
- Designated parking spaces for a car share program;
- Unbundled parking;
- Wayfinding and bicycle route mapping resources;
- Participation/Formation in/of a Transportation Management Association (TMA) in partnership with other developments in the area;
- Aggressive trip reduction targets with Lead Agency monitoring and enforcement;
- VMT Banking and/or Exchange program; and/or
- Area or cordon pricing.

Using a combination of strategies appropriate to the project and the site can reduce VMT, along with related impacts on the environment and State facilities. TDM programs should be documented with annual monitoring reports by a TDM coordinator to demonstrate effectiveness. If the project does not achieve the VMT reduction goals, the reports should also include next steps to take in order to achieve those targets.

Please reach out to Caltrans for further information about TDM measures and a toolbox for implementing these measures in land use projects. Additionally, Federal Highway Administration's Integrating Demand Management into the Transportation Planning Process: A Desk Reference (Chapter 8). The reference is available online at: http://www.ops.fhwa.dot.gov/publications/fhwahop12035/fhwahop12035.pdf.

Transportation Impact Fees
We encourage a sufficient allocation of fair share contributions toward multimodal and regional transit improvements to fully mitigate cumulative impacts to regional transportation. We also strongly support measures to increase sustainable mode shares, thereby reducing VMT. Caltrans welcomes the opportunity to work with the City and local partners to secure the funding for needed mitigation. Traffic mitigation- or cooperative agreements are examples of such measures.

Please identify in text and graphics existing and proposed improvements for the pedestrian, bicycle, and transit networks. The City should estimate the cost of needed improvements, expansion, and maintenance for the Plan area, as well as identify

viable sources of funding, correlated with the pace of improvements, and a scheduled plan for implementation along with the DEIR.

Lead Agency
As the Lead Agency, the City of Lafayette is responsible for all project mitigation, including any needed improvements to the State Transportation Network (STN). The project's fair share contribution, financing, scheduling, implementation responsibilities and lead agency monitoring should be fully discussed for all proposed mitigation measures.

Equitable Access
If any Caltrans facilities are impacted by the project, those facilities must meet American Disabilities Act (ADA) Standards after project completion. As well, the project must maintain bicycle and pedestrian access during construction. These access considerations support Caltrans' equity mission to provide a safe, sustainable, and equitable transportation network for all users.

Thank you again for including Caltrans in the environmental review process. Should you have any questions regarding this letter, please contact Laurel Sears at laurel.sears@dot.ca.gov. Additionally, for future notifications and requests for review of new projects, please email LDIGR-D4@dot.ca.gov.

Sincerely,

MARK LEONG

Source: EMFAC2021 (v1.0.1) Emission Rates
Region Type: County
Region: Contra Costa
Calendar Year: 2023
Season: Annual
Vehicle Classification: EMFAC2007 Cateaories
Units: miles/day for CVMT and EVMT, trips/day for Trips, g/mile for RUNEX, PMBW and PMTW, g/trip for STREX, HOTSOAK and RUNLOSS, g/vehicle/day for IDLEX and DIURN. PHEV calculated based on total VMT.

B-2 Road Dust Emission Factor Calculation

Construction Entrained Dust Calculation
Lafayette Housing Element - Distributed Scenario
Contra Costa County, CA

Road Dust Equation

E [lb/VMT] = k*(sL)^0.91 * (W)^1.02 * (1-P/4N)

Where:
E = the particulate emission factor in units of pounds of particulate matter per VMT
k = the U.S. EPA AP-42 particle size multiplier (PM_{10} = 0.0022 lb/VMT),[1]
sL = the roadway-specific silt loading in grams/square meter (g/m^2),[2,3,4,5]
W = the average weight of vehicles traveling the road (California statewide default = 2.4 tons),[5]
P = number of "wet" days, when at least one site per county received at least 0.01 inch of precipitation during the annual averaging period,[9] and
N = the number of days in the annual averaging period (default = 365)

Source: California Air Resources Board (CARB), Miscellaneous Process Methodology 7.9 — Entrained Road Travel, Paved Road Dust. Revised and updated March 2018, https://ww3.arb.ca.gov/ei/areasrc/fullpdf/full7-9_2018.pdf.

Silt Loading Factor

Source: CARB, 2018.

Table 3: California Default Statewide and Local Silt Loading Values

Silt Loadings (g/m2)

Re-entrained PAVED Road Dust Emission Factors

Methodology

Calculation Methodology: USEPA AP-42, Paved Roads, Section 13.2.1, Revised January 2011:
http://www.epa.gov/ttn/chief/ap42/ch13/final/c13s0201.pdf

K-value from CARB, 2018.

Pollutant	Variables					E_{ext} (g/mi)
	k	sL	W	P	N	
PM10	1.00	0.046795	2.4	60	365	**0.14437**
PM2.5	0.15	0.046795	2.4	60	365	**0.02166**

From TABLE 7

E_{ext} (lb/10^6 VMT)
112.2
16.83

Where:	**Source**
E = particulate emission factor (grams of particulate matter/VMT)	*calculation*
	Table 13.2.1-1 Particle Size Multipliers for Paved Road Equation of USEPA, 2011.
k = particle size multiplier (g/VMT)	
sL = local roadway silt loading (g/m2)	*CARB, 2018.*
W = average weight of vehicles on the road (tons)	*CARB, 2018.*
P = number of wet days with at least 0.254mm of precipitation	*Table 8 of CARB, 2018.*
N = number of days in the averaging period	annual days (365)
