Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Tijuana River Valley Regional Park Habitat Restoration Plan Project

Lead Agency: County of San Diego Department of Parks and Recreation

Contact Name: Megan Doran

Email: megane.doran@sdcounty.ca.gov Phone Number: (619) 909-6309

Project Location: San Diego (*City*) San Diego County (*County*)

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project is a Habitat Restoration Plan (HRP) for restoration activities on primarily County-owned or managed parcels located within the TRVRP. The goal of the HRP is to identify, prioritize, and implement phased large-scale restoration. By developing a comprehensive HRP, invasive non-native plant species would be targeted for removal, and native plant restoration would occur over several independent phases.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project has potentially significant effects on Biological Resources, Cultural Resources, Geology and Soils, Land Use & Planning, Noise, and Tribal Cultural Resources with proposed mitigation measures to avoid those effects. Biological Resources mitigation measures include MM-BIO-1 and MM-BIO-2 (nesting bird avoidance season, surveys, and noise monitoring), MM-BIO-3 and MM-BIO-4 (special status plant species inclusion in plant palettes), MM-BIO-5 (Quino Checkerspot Survey, Avoidance and Minimization Measures), MM-BIO-6 (regulatory agency permitting and approvals), MM-BIO-7 (preparation of habitat restoration plan), MM-BIO-8 (temporary environmental fencing), MM-BIO-9 (qualified biologist monitoring). Cultural Resources mitigation measures include MM-CUL-1 (cultural resource specialist monitoring), MM-CUL-2 (identify high cultural resource sensitivity areas), MM-CUL-3 (cultural resource specialist and Native American monitoring), and MM-CUL-4 (discovery of human remains measures). Geology and Soils mitigation measures include MM-PAL-1a - MM-PAL-1g (paleontological monitoring and reporting). Land Use & Planning mitigation measures include MM-BIO-1 and MM-BIO-2 (nesting bird avoidance season, surveys, and noise monitoring). Noise mitigation measures include MM-BIO-1 and MM-BIO-2 (nesting bird avoidance season, surveys, and noise monitoring). Tribal Cultural Resources mitigation measures include MM-CUL-1 (cultural resource specialist monitoring), MM-CUL-2 (identify high cultural resource sensitivity areas), MM-CUL-3 (cultural resource specialist and Native American monitoring), and MM-CUL-4 (discovery of human remains measures).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
