Project Description (Proposed actions, location, and/or consequences).

The CEDHSP DEIR (State Clearinghouse #2013022044) has been partially revised to address adoption of the statewide 2045 GHG-reduction goal per Assembly Bill 1279, release of the California Air Resources Board's 2022 Scoping Plan, and project-level implications of California Association of Restaurants vs. City of Berkeley. Therefore, the changes to the DEIR contained in this Third Partial Recirculated DEIR are focused on updating the Air Quality and GHG sections, remodeling emissions (using an updated version of CalEEMOD), and 2022 Scoping Plan consistency analysis. There are no changes to the CEDHSP project itself.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

No new significant impacts; however mitigation measures and mitigation measure language has been updated from the prior CEQA compliance documentation.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Potential emissions and health risks associated with air quality and greenhouse gas emissions.

Provide a list of the responsible or trustee agencies for the project.

El Dorado Irrigation District, El Dorado Hills CSD, Regional Water Quality Control Board, State Water Resources Control Board, California Department of Fish and Wildlife, U.S. Army Corps of Engineers, U.S. Fish and Wildlife Service
