Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Groveland CSD - Trails Improvements Project

Lead Agency: Groveland Community Services District

Contact Name: Peter Kampa

Email: pkampa@gcsd.org Phone Number: 209.962.7161

Project Location: Groveland, Tuolumne
City *County*

Project Decription (Proposed actions, location, and/or consequences).

The Project consists of installation of approximately 2.5 miles of 12-foot-wide trails for pedestrian recreational use. The trail will begin at an existing baseball field located near the Groveland CSD offices. From there, the trail goes south and west past the Mary Laveroni Park, where the trail will intersect and continue westward where it will meet the Jefferson Mine Trail Loop. Two pedestrian bridges are proposed to be installed over a creek to accommodate the trail. Other trail improvements consist of trail lighting, signage, benches, kiosks and trash receptacles. The Project also includes improvements to Mary Laveroni Park, consisting of new restrooms, a walking loop, a small amphitehater, benches, trash receptacles, transit shelter, picnic benches and related improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

BIO – 1 Protect northwestern pond turtle (includes restrictions on timing of construction within streambeds, preconstruction surveys, buffer zones, and other protective measures).

BIO - 2 Protect nesting birds (includes restrictions on timing of construction, preconstruction surveys, and other protective measures).

BIO - 3 Protect western red bat (includes restrictions on timing of construction, preconstruction surveys, and other protective measures).

Cultural Resources

- In the event that archaeological remains are encountered at any time during development or ground-moving activities within the entire Project area, all work in the vicinity of the find should be halted until a qualified archaeologist can assess the discovery and take appropriate actions as necessary.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Controversy known to the Lead Agency:

No known areas of controversy are known regarding this project. A public hearing will be held on August 9, 2022.

Provide a list of the responsible or trustee agencies for the project.
