Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Woodlake Reconciliation Project

Lead Agency: City of Woodlake

Contact Name: Rebecca Griswold, Community Services Director

Email: rgriswold@ci.woodlake.ca.us Phone Number: 559.564.8055

Project Location: Woodlake (*City*) Tulare (*County*)

Project Decription (Proposed actions, location, and/or consequences).

The City intends to amend the land use through a General Plan Amendment and/or change the zone in 12 distinct areas within the City. Also proposed is the development of nine single family residences and the installation of 1,100 linear feet of pipeline, which will connect to the existing stormwater system.

The APN's to undergo a land use change and/or zone change include: 061-140-024,0-023, -022, 061-133-017,0-016, 061-020-045, 060-133-012, -013, -014, 061-007-013, 060-170-101, -102, 060-270-017, 060-170-108, 061-155-022, 061-090-019, -011, 061-020-046, 060-210-026, and 060-260-010.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Cultural Resources: While no historic resources were discovered during the investigations, subsurface construction activities associated with the proposed Project could potentially damage or destroy previously undiscovered historic resources. This is considered a potentially significant impact; however, implementation of Mitigation Measure CUL-1 and CLU-2 will ensure that significant impacts remain less than significant with mitigation incorporation. Mitigation includes worker education, construction monitoring by the construction supervisor, and stopping all construction and contacting authorities in the event of uncovered resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Controversy known to the Lead Agency:

No known areas of controversy are known regarding this project.

Provide a list of the responsible or trustee agencies for the project.
