Stockton, CA 95202  
Contact: Bhupinder Sahota  
Phone number: (209) 948-7696

---

**SCH#:** 2013012057

**WATER SYSTEM #:** 3910006

**PROJECT TITLE:** Operation of Stockton East Water District (3910006) – Calaveras Integrated Stormwater Management Project- Groundwater Recharge Component at Stockton East Water District North Site Project (Project)

**PROJECT LOCATION:** 6767 East Main Street in Stockton within San Joaquin County

**PROJECT DESCRIPTION:** The District constructed a 73-acre detention basin and installed 2,200-feet of 30-62-inch diameter piping. The piping connected the recharge basin to the existing Calaveras and Stanislaus River source connection, to the North Raw Water Reservoir, and connected an extraction well, Well 5, to the South Water Reservoir. By installing these connections, the new detention basin is also connected to East Raw Water Reservoir, South Flooded Field, Overflow Pond, and the treatment plant. The original piping for the well ran above ground and the new piping was installed below ground. A 64-foot<sup>2</sup>, eight-foot tall electrical control building was also installed. The Project will not increase the amount of water treated, but will provide for better quality water, by allowing for the use of stored basin water with lower turbidity during high river turbidity periods.

**PUBLIC AGENCY APPROVING PROJECT AND CARRYING OUT PROJECT:** This is to advise that the State Water Resources Control Board (State Water Board) has issued a drinking water supply permit 01-10-19PA-005 for the above described Project on July 11, 2019. A record of permit issuance for the Project is available to the general public at the State Water Board, Division of Drinking Water District Office noted above.

**Categorical Exemption Status:**

Class 1 Existing Facilities  
(California Code of Regulations, Title 14, Division 6, Chapter 3, Article 19, Section 15301)

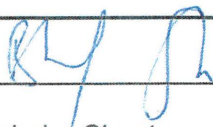

**Reason why Project is exempt:** The Project is an existing facility and construction of the facility is complete.

**LEAD AGENCY:** Stockton East Water District

**CONTACT PERSON:** Kevin Kauffman
