Project Title: LOWER PUTAH CREEK RESTORATION PROJECT, NISHIKAWA REACH

Project Applicant: Solano County Water Agency

Project Location (include county): Reach of Putah Creek west of the Pedrick Road Bridge, Yolo and Solano

Project Description:

SCWA proposes to restore salmon habitat along a 0.5-mile section of Putah Creek in Yolo and Solano counties. The project involves restoring a section of active channel that is currently in an over-widened condition. The project aims to create a narrow design channel in a more central, meandering form and to seal the existing channel to create a 0.5 mile of nearly continuous salmon spawning habitat across a gravel-rich floodplain. The project design would include grading of 9 acres to floodplain elevation, and

This is to advise that the Solano County Water Agency has approved the above (Lead Agency or Responsible Agency)

described project on 5/11/23 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
