Project Description (Proposed actions, location, and/or consequences).

The Ontario Regional Sports Complex Project (Proposed Project) would allow for the development of a variety of recreation-oriented and supporting uses including a semi-professional Minor League baseball stadium, commercial retail area, a new City recreation center and aquatics center surrounded by a variety of baseball/softball, soccer, and multi-use fields on an approximately 199 gross acre site in the City of Ontario. The Proposed Project would result in the development of 540,750 square feet of commercial building space, 450,000 square feet of stadium space, and 272,000 square feet of parking structures. The Proposed Project is on the southeast corner of Vineyard Avenue and Riverside Drive. The Proposed Project would also require street widening and intersection improvements, with half-width to potentially full-width improvements along Vineyard Avenue, Riverside Drive, and Chino Avenue. Furthermore, it would involve the re-designating and rezoning of the site to Hospitality/Convention Center Support Retail and Open Space (OS-P)/Open Space-Recreation.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

All significant or potentially significant effects to environmental resources shall be addressed in the Environmental Impact Report (EIR). The analysis in the EIR will address: Aesthetics, Agriculture and Forestry Resources, Air Quality, Biological Resources, Cultural Resources, Energy, Geology and Soils, Greenhouse Gas Emissions, Hazards and Hazardous Materials, Hydrology and Water Quality, Land Use Planning, Mineral Resources, Noise, Population and Housing, Public Services, Recreation, Transportation, Tribal Cultural Resources, Utilities and Service Systems, Wildfire.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
