Project Title: Denmar Natural Soda Ash Export Terminal and Remedial Activities Addendum to the Port of Stockton West Complex Development Plan

Project Applicant: Port of Stockton

Project Location (include county): Rough and Ready Island, Stockton, San Joaquin County, California

Project Description:

Under the proposed project, which is a part of the West Complex Development Plan (WCDP), the Port of Stockton (Port) would conduct remediation on the former military landfill lands located in the western areas of the West Complex pursuant to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). Following the initial phase of remediation, Denmar US LLC (Denmar) would construct and operate Phase 1 of a bulk natural soda ash export facility. Future remediation would occur concurrent with and/or after Phase 2 of the Denmar terminal construction. Both phases of the Denmar terminal construction and both the initial and future remedial activities constitute this proposed project. The Port relied on the WCDP EIR as modified by an Addendum. The project would not result in new or substantially more severe impacts compared to the impacts disclosed in the WCDP EIR.

This is to advise that the Port of Stockton has approved the above
