A.3 Project Description

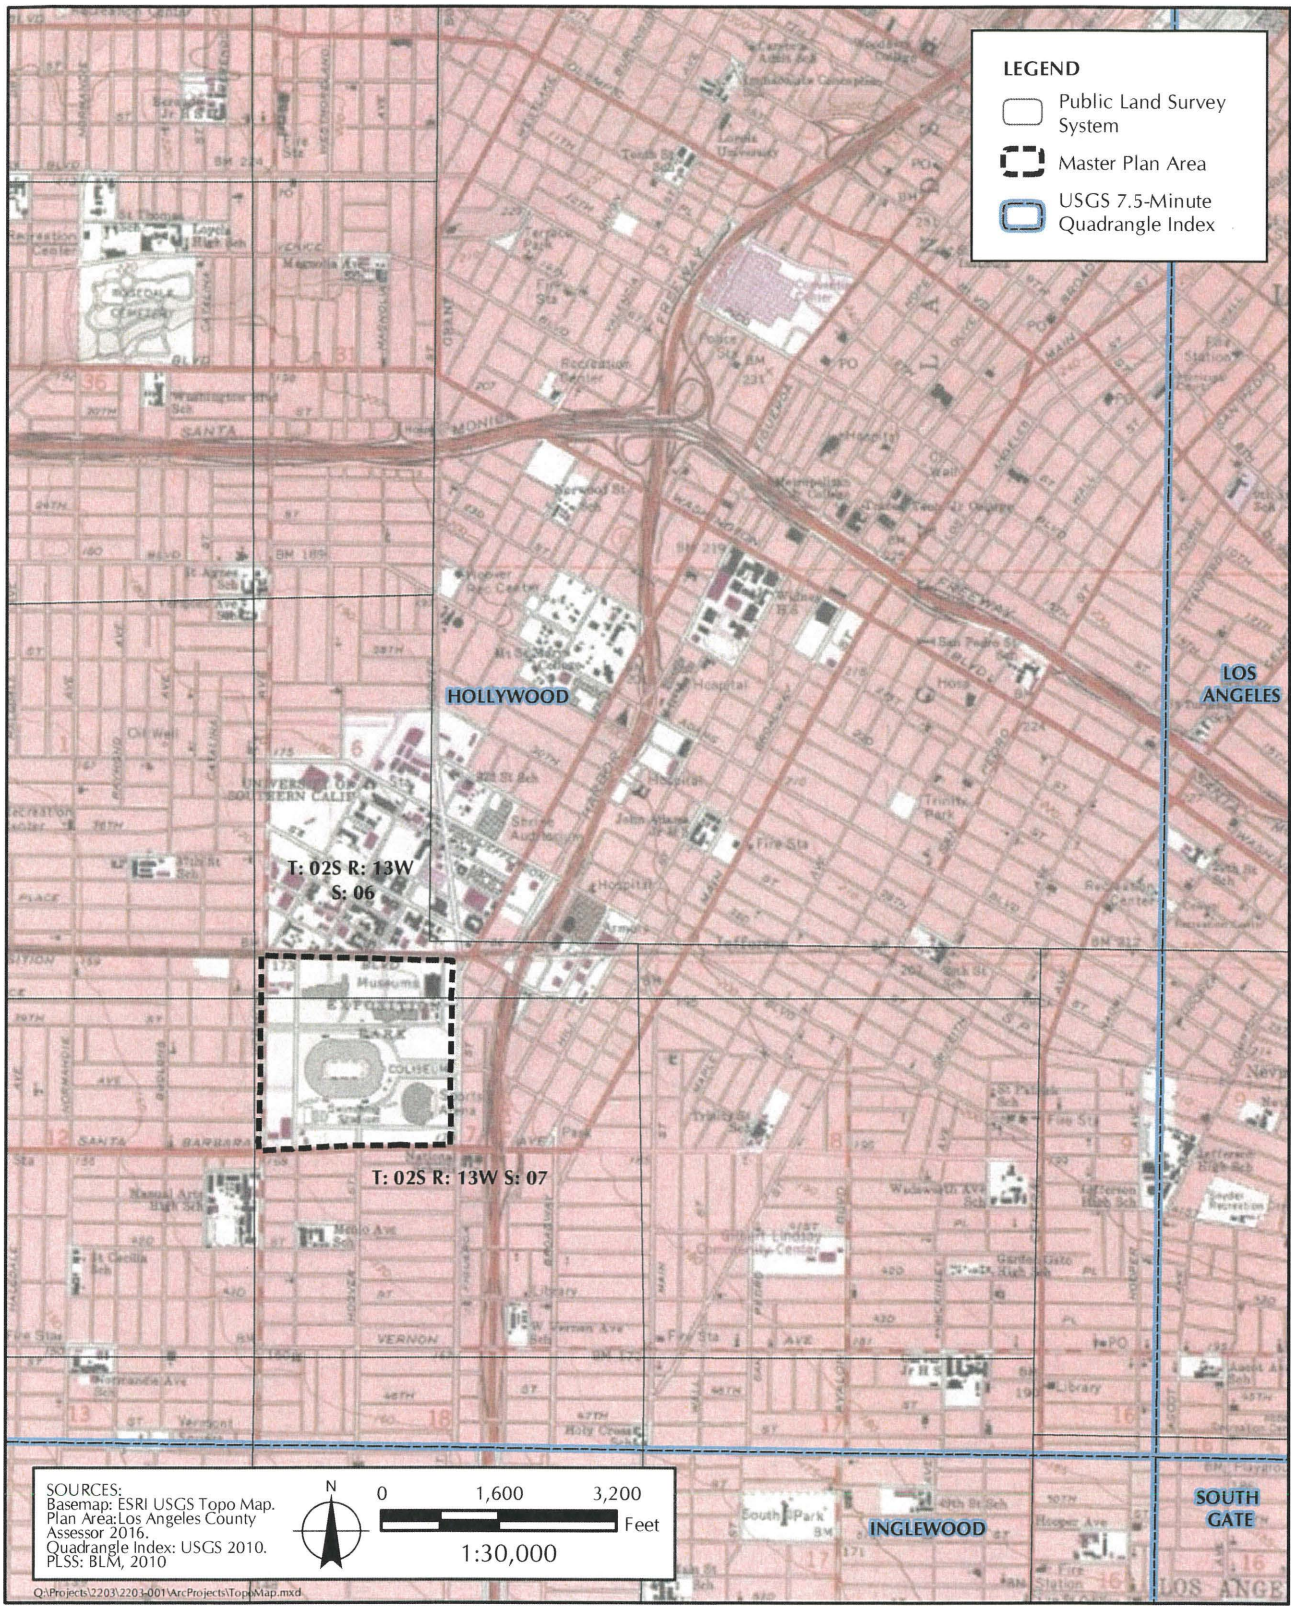

The proposed project is located on a 152-acre site located approximately 2 miles southwest of the Los Angeles Civic Center at 700 Exposition Park Drive in the City of Los Angeles, Los Angeles County, California (see Figure 1, *Topographic Map with USGS 7.5-minute Index*). The Master Plan Area is bordered by the University of Southern California (USC) and Exposition Boulevard to the north, Figueroa Street and the Harbor Freeway (Interstate 110) to the east, Martin Luther King Jr. Boulevard to the south, and South Vermont Avenue to the west. The proposed project is located within a High Quality Transit Area (HQTA) in an urbanized location and is in close proximity to high-density urban development. Regional access to Exposition Park is provided by Interstate 110, located approximately 0.1 mile east of the park.

The southwestern and southern portions of Exposition Park are located within the Coliseum District Specific Plan, which was established in 2006 under Addendum No. 1 to the 2003 certified Los Angeles Memorial Coliseum Renovation Project Environmental Impact Report (2003 EIR) (State Clearinghouse No. 1990011065). The 2003 EIR has been amended four times as the use has evolved to address architectural modifications, parking and pedestrian circulation improvements, and relocation of a soccer field. As the use of the park has evolved, improvements to open spaces need further refinement to accommodate a level of use not anticipated at the time of the EIR and amendments. The improvements to the Coliseum have been largely completed but have created an unforeseen impact on the surrounding open space and pedestrian and vehicular areas that are best addressed in a Master Plan. The proposed Exposition Park Master Plan would overlap with the original Coliseum renovation project site and the Coliseum District Specific Plan established in Addendum No. 1 to the 2003 EIR. The proposed project would relocate existing VIP Game Day parking spaces for Coliseum events within the Coliseum District Specific Plan boundaries.

The proposed project would guide the development of Exposition Park during a 25-year period to link Exposition Park to the City of Los Angeles around it; connect the park's segments to one another; and encourage the community members and visitors to linger with the inclusion of more plentiful pathways, plantings, and visitor amenities. The proposed project is composed of nine elements:

1. Threshold and Gateway
2. Expo Festival Plaza
3. Solar Garden
4. Festival Park and Community Promenade
5. Bill Robertson Lane
6. Museum Walk
7. California African American Museum Sculpture Garden
8. Zanja Madre
9. Olympic Ring Walk

The proposed project would connect the park's segments by improving pedestrian and recreational use of the spaces between its buildings and moving surface parking spaces underground.
