STATE CLEARINGHOUSE

Re: Reaffirmation of California Environmental Quality Act (CEQA) Compliance for Inland Empire Utilities Agency Projects Funded through the State Revolving Fund Loan Program

The Inland Empire Utilities Agency (IEUA) applied for and anticipates the receipt of funding agreements for three water and wastewater infrastructure projects to be administered through the Clean Water State Revolving Fund (CWSRF) loan program. The projects being reaffirmed, along with the CWSRF project and State Clearinghouse numbers, are as follows:

- RP-5 Expansion Construction Project (8173-210)
- Distribution System/Wineville/Jurupa/RP-3 Recharge Improvements (8260-110)
- Montclair Basin Improvement Project (8415-110)

These projects have demonstrated compliance with CEQA requirements under the CWSRF program and the Notice of Determination for the Program Environmental Impact Report encompassing all three projects was originally filed with the State Clearinghouse on March 15, 2017, under State Clearinghouse Number 2016061064. Since these projects have not secured a funding agreement within five years of the original posting date, IEUA is reaffirming that no project or regulatory changes have occurred and there are no new potential impacts since the original posting date in March 2017.

If there are any questions regarding this reaffirmation, please do not hesitate to contact Jesse Pompa, IEUA's Manager of Grants at (909) 993-1545 or by e-mail at jpompa@ieua.org.

Sincerely,

INLAND EMPIRE UTILITIES AGENCY
