January 29, 2024

State of California  
State Clearinghouse Unit  
Governor's Office of Planning and Research

To whom it may concern:

CAL FIRE would like to request Notice of Exemption (NOE), SCH# 2017058540, be withdrawn from the CEQAnet Web Portal.

After Administrative review it was determined this NOE contained language within the document which should be revised. The NOE is being resubmitted using the same SCH Number per Office Planning and Research (OPR) direction.

The current site conditions on this NOE are consistent with those as described and analyzed at the time of approval. Project activities have occurred and are planned to occur according to the Project Description and are sufficient to accomplish the ongoing project goals. The Unit VMP Forester, Resource Management Chief, and Environmental Scientist have reviewed the NOE and have determined that no additional analysis or updates are necessary. No changes in site conditions or project activities are expected.

Please let me know if you have any questions.

Thank you,

A handwritten signature in blue ink that reads "Daniel Craig".

Daniel Craig  
Forester II, VMP Coordinator  
CAL FIRE Northern Region
