Notes:

du = dwelling units

sf = square feet

rm = rooms

emp = employees

[a] Related Projects List was prepared as a component of the Traffic Study, Appendix L-2 of this Draft EIR.

[b] Employee Generation Rates for these uses are based on data provided in the Los Angeles Unified School District, 2016 Developer Fee Justification Study.

[c] It is assumed that each hotel room is approximately 500 square feet.

[d] The projects that fall under Other include a variety of uses, including storage, sound stage, and other uses that do not have a specific generation rate. In those cases, the closest possible generation factor is used

[e] It is assumed that theater will require approximately 9 square feet per seat.

[f] Related Project Numbers 38 and 84 use the number of provided employees rather than a generation factor.
