APPENDIX 3.17-C: ARCHAEOLOGICAL AND BUILT RESOURCES

Appendix 3.17-C includes a map set containing overview maps for potentially affected archaeological resources and potentially affected historic built resources locations, as well as individual historic built resource maps that show project alternative alignments, project footprint boundaries, and potentially affected historic property boundaries. The built resource maps include the identification numbers assigned to individual resources located in the APE. A description of the project scope and evaluation of impacts at each resource are included in Chapter 3.17-C, Cultural Resources, and are organized by these resource identification number. Individual archaeological site maps are not included, because the location of such resources is protected from public disclosure under state and federal law.
