Present Land Use/Zoning/General Plan Designation:

Various

Project Description: (please use a separate page if necessary)

The project is comprised of two separate but interrelated components, a water conveyance tunnel from Nacimiento Reservoir to San Antonio Reservoir, and modifications to the existing spillway at San Antonio Reservoir. The project includes the following elements: Interlake Tunnel (gravity flow), Tunnel Intake Structure at Nacimiento Reservoir, Energy Dissipation Structure at San Antonio Reservoir, San Antonio Dam Spillway Modification, and disposal of spoils. The proposed modifications of the spillway at San Antonio Reservoir would provide a 7 foot increase in the maximum reservoir elevation, effectively increasing the storage capacity of the reservoir by approximately 41,000 acre-feet.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
