SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code § 21108

State Clearinghouse Number: 1988062818

Project Title: Graniterock A.R. Wilson Quarry Project at South Canyon (California Endangered Species Act Incidental Take Permit No. 2081-2020-020-04 (ITP))

Project Location (include county): The Graniterock A.R. Wilson Quarry Project at South Canyon (Project) is located near the City of Aromas in San Benito County. The Project is comprised of two discrete locations: 1) the "Project Overburden Site" and 2) the "Mitigation Site". The Project Overburden Site is located immediately south of the existing Graniterock A.R. Wilson Quarry, approx. 0.59 miles north of the intersection of California State Route 156 and Cannon Road within U.S. Geological Survey (USGS) San Juan Bautista 7.5-minute quadrangle. The Mitigation Site is approx. 1.2 miles northeast of the Project Overburden Area and 1 mile west of the intersection of California State Route 129/United States Route 101 within USGS Chittenden 7.5-minute quadrangle.

Project Description: This proposed project involves two discrete elements: 1) the placement of approximately 4.4 million cubic yards of soil and sedimentary rock (overburden), removed from the A.R Wilson Graniterock Quarry, within a 36.87-acre portion of the South Canyon portion of the Brigantino property (Project Overburden Site) and 2) habitat restoration and enhancement activities within an 86-acre off-site property (Mitigation Site). Overburden placement will also include the installation of long-term wildlife exclusion fencing, installation of surface and subsurface drainage systems to prevent runoff- and stormwater-related issues, and reclamation and revegetation once overburden placement is complete. Restoration activities will involve the reestablishment, rehabilitation, and enhancement of on-site ephemeral drainages (i.e., streams) to restore function and/or provide stabilization against erosion and creation of a pond. In addition, to compensate for the loss of riparian habitat from the Project Overburden Site, willow and oak riparian areas will be established through installation of riparian plantings.

The Project will result in the permanent loss of 27.67 acres of upland habitat for California tiger salamander (*Ambystoma californiense*) within the Project Overburden Site and the permanent loss of 0.03 acre and of upland habitat for the Covered Species, and temporary loss of 1.29 acres of upland habitat for the Covered Species within the Mitigation Site. The Project is expected to result in incidental take of California tiger salamander, which is designated as a threatened species under the California Endangered Species Act (CESA). The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.

This is to advise that CDFW, acting as [the lead agency / a responsible agency] approved the above-described project on 12/13/2022 and made the following determinations regarding the above-described project:

1. The project [will / will not] have a significant effect on the environment (This determination is limited to effects within CDFW's permitting jurisdiction as a responsible agency).
2. [An environmental impact report / A negative declaration] was prepared by the lead agency for the original project.
3. Additional mitigation measures [were / were not] made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan [was / was not] adopted by CDFW for this project.

Notice of Determination

- 5. A Statement of Overriding Considerations [was / was not] adopted by CDFW for this project.
- 6. Findings [were / were not] made by CDFW pursuant to Public Resources Code § 21081(a).
- 7. Compliance with the environmental filing fee requirement at Fish and Game Code § 711.4 (check one):
 - Payment is submitted with this notice.
 - A copy of a receipt showing prior payment was submitted to CDFW.
- Responsible Agency statement: The EIR prepared by the lead agency for the Project is available to the general public at the office location listed above for the lead agency. CDFW's administrative record of proceedings related to the incidental take permit is available to the public for review at CDFW's regional office.
