SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 1999062020

Project Title: Central 1A Shared Baseline Road Project #02 (Infrastructure Segment F)
(Streambed Alteration Agreement Notification No. 1600-2018-0113-R2)

Project Location (include county): The project is located at Curry Creek and tributaries to Curry Creek, in the County of Placer, State of California; Assessor's Parcel Numbers: 023-200-005-000 and 023-200-037-000. The project is generally located along Baseline Road in Placer County, California, west of Walerga/Fiddymment Road and east of Watt Avenue.

Project Description: The California Department of Fish and Wildlife (CDFW) has extended Streambed Alteration Agreement Notification No. 1600-2018-0113-R2, pursuant to Section 1602 of the Fish and Game Code to the project Permittee, Placer Vineyards Central Group, LLC. The Permittee has requested, and CDFW has approved, a five-year extension pursuant to Fish and Game Code section 1605, subdivisions (b) and (d).

The project is limited to the installation of a water line occurring to the south of the existing Baseline Road within the 18.8-acre project boundary of Segment F. The water line will be installed to the south of the existing Baseline Road via an open trench. The water line will consist of a 24-inch ductile iron pipe. To install the water line, a 4-foot wide and 10- to 15-foot-deep open trench will be dug (both in the upland areas and through aquatic features where the line is proposed to be installed), the water line will be placed, and the dirt excavated to dig the open trench will be used to backfill the trench and bury the water line. To the east, the water line will tee into the existing 16-inch transmission main at the intersection of Walerga and Fiddymment Road and to the west the water line will connect with a water line (24-inch ductile iron pipe) to be installed in Segment G.

This is to advise that CDFW, acting as a Responsible Agency, extended the above Streambed Alteration Agreement extension on the date signed below and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

Notice of Determination

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were made by CDFW pursuant to California Code of Regulations section 15091.

The final environmental impact report prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of execution of the above Streambed Alteration Agreement as Responsible Agency is available at CDFW's regional office.
