Present Land Use/Zoning/General Plan Designation:

City of Roseville road right-of-way.

Project Description: (please use a separate page if necessary)

The proposed project involves improvements along an approximately 1.4-mile section of existing Washington Boulevard right-of-way in the City of Roseville. The project generally involves widening a 0.85-mile section of Washington Boulevard between Sawtell Road and Pleasant Grove Boulevard from two to four lanes and replacing the existing 100-year-old Washington Boulevard Andora Underpass beneath the Union Pacific Rail Road. The project also includes expansion of existing Class 1 bike/pedestrian multi-use trail facilities and related safety enhancements. The Project is currently planned for construction in 2 Phases. Phase 1 generally includes the majority of road widening (with the exception of at the Andora Underpass), most Class I (See continuation page)...

(Project Description continuation page)...

and intersection improvements (including a new signal at the Washington Boulevard/Kaseberg Drive intersection) and would be constructed in summer 2020. Phase 2 would include completing the widening of Washington Boulevard at the Andora Underpass, final drainage improvements including the proposed bio-retention basin, sound wall, and improvements at the Washington Boulevard/Pleasant Grove Boulevard intersection. The schedule for Phase 2 construction is currently unknown and subject to funding availability. The project's major components include:

- Widening approximately 0.85 mile of Washington Boulevard from two to four lanes with a raised median separating northbound and southbound traffic (Phase 1).
- Widening the Andora Underpass to a two-span bridge with columns located in the roadway median island to accommodate the additional two lanes (Phase 2).
- Improving the Washington Boulevard/Pleasant Grove Boulevard intersection by lowering the intersection to conform to the new Washington Boulevard road elevation on the south and removing an existing hump across Washington Boulevard (Phase 2).
- Installing a new traffic signal at the Washington Boulevard/Kaseberg Drive intersection (Phase 1 - should appropriate grant funding be obtained).
- Modifying the existing traffic signal at the Washington Boulevard/Diamond Oaks Road intersection to conform to the new four-lane roadway (Phase 1).
- Adding 8-foot-wide Class II (i.e., on-street with appropriate signing and striping) bike lanes along both sides of Washington Boulevard (Phases 1 and 2).
- Extending the existing Class I bike path on the east side of Washington Boulevard from a point approximately 150 south of Diamond Oaks Road to All-America City Boulevard with a 10- to 12-foot-wide path parallel to Washington Boulevard (Phase 1).
- Removing the existing bicycle/pedestrian crossing under UPRR (Phase 2) and providing a new temporary connection between the existing Derek Place bike path and the new Class I bike path along Washington Boulevard (described above) (Phase 1).
- Adding a new 8- to 12-foot-wide multiuse path on the west side of Washington Boulevard between Emerald Oaks Road and Kaseberg Drive (Phases 1 and 2). Portions of this proposed multiuse path may be deferred beyond Phase 2 until additional construction funding is available.
- Conducting floodplain, water quality, and drainage improvements (Phase 1 and 2).
- Relocating existing utilities, including sewer, water, telecommunications, and natural gas (Phases 1 and 2).
- Potentially constructing a sound wall adjacent to residential areas along Washington Boulevard (to be determined during Phase 2).

Temporarily restriping Foothills Boulevard at Junction Boulevard to provide two left-turn lanes from southbound Foothills Boulevard to eastbound Junction Boulevard to accommodate traffic management during widening of the Andora Underpass (Phase 2).
