Subject: Request to update Project Description for SCH No. 200601237, Los Vaqueros Reservoir
Expansion Project

To Whom it May Concern:

Please update the landing page Project Description for SCH No. 200601237, Los Vaqueros Reservoir Expansion Project, from the current description, which starts with 'This proposed project involves the use of controlled livestock grazing' which only describes one action associated with the Project to the following:

Expansion of the existing Los Vaqueros Reservoir from 100 thousand-acre-feet (TAF) to 275 TAF capacity in two phases, including raising the existing dam and construction of appurtenant facilities, construction of conveyance facilities to support a 275 TAF expansion, and construction/relocation/reconstruction of existing/proposed recreational facilities.

Sincerely,

A handwritten signature in blue ink that reads "Maureen Martin".

Maureen Martin
Los Vaqueros Expansion Program Manager
