RECIRCULATED DRAFT ENVIRONMENTAL IMPACT REPORT SAN DIEGO INTERNATIONAL AIRPORT – AIRPORT DEVELOPMENT PLAN SCH NO. 2017011053 – SDCRAA # EIR-18-01

Pursuant to the California Environmental Quality Act (CEQA), the San Diego County Regional Airport Authority (SDCRAA or Authority), as the Lead Agency, has prepared a Recirculated Draft Environmental Impact Report (RDEIR) for the San Diego International Airport Development Plan (the proposed project). The proposed project would result in the following significant and unavoidable impacts during construction and/or operation of the project: air quality, greenhouse gas (GHG) emissions, cultural resources, hazards and hazardous materials, land use and planning, noise, and traffic and circulation.

PROJECT LOCATION: San Diego International Airport (SDIA or Airport) is located in the northwest portion of the downtown area within the City of San Diego. The Airport is generally bounded by North Harbor Drive and San Diego Bay to the south, the Navy Boat Channel and Liberty Station mixed-use development to the west, the Marine Corps Recruit Depot to the north, and Pacific Highway and Interstate 5 to the east.

PROJECT DESCRIPTION: The SDCRAA is proposing the next master planning phase for SDIA, in accordance with a new Airport Development Plan (ADP). The ADP provides a development framework to implement improvements that will enable SDCRAA to accommodate future demand for air travel anticipated to occur at SDIA with more modern, efficient, and comfortable facilities. The primary elements of the ADP include: (1) replacement of Terminal 1 with a new terminal of up to 30 gates; (2) development of circulation and roadway improvements to enhance mobility to the existing and proposed terminals from North Harbor Drive, including a new multi-use pedestrian and bicycle pathway and airport entry road for inbound vehicle traffic; (3) modifications to Terminal 2, including the addition of a new west concourse and replacement of Terminal 2 East with a linear concourse connector between Terminal 2 West and the new Terminal 1; (4) airfield taxiway improvements and new remain overnight (RON) aircraft parking areas; (5) a potential commercial development opportunity to complement the terminal function of the replacement Terminal 1 facility; (6) development of a five-story parking structure adjacent to the new Terminal 1; and, (7) other related improvements, such as replacement of SDCRAA's administrative offices that would be displaced by the new Terminal 1, and various infrastructure improvements.

PUBLIC REVIEW AND COMMENT: The RDEIR will be available for review and comment for forty-five (45) days commencing September 19, 2019 and ending November 4, 2019 at 5:00 PM. The RDEIR is available for general public review on the website www.san.org (under link to Airport Projects/Environmental Affairs/CEQA & NEPA) or www.san.org/plan, and at the locations listed below (review days and times vary by location).
