RE: SCH#2017012009

The Yuba-Sutter Area was recently requested to review the referenced "Notice of Completion" related to the Bogue-Stewart Master Plan Environmental Impact Report. After review, we have concerns with the potential impact this project could have on traffic congestion.

Our concern relates to the proposed construction of a mix of residential, commercial, office/business, park and recreational sites, and public facilities on 741 acres. The proposed project surrounds State Route 99 south of Yuba City. State Route 99 would serve as the main route of future residents of the proposed project to Yuba City and/or Sacramento. This project could have a negative impact on our operations due to the increased traffic congestion, which could necessitate the need for additional traffic control measures to mitigate a potential increase in traffic collisions within our jurisdiction.

Please do not hesitate to contact me at (530) 674-5141.

Sincerely,

A handwritten signature in blue ink that reads "Julie Harding".

JULIE V. HARDING, Captain
Commander
Yuba-Sutter Area
