Interested Parties

**Re: Revisions to Title 19 -Kern Oil and Gas Local Permitting (2020-A)
Focused on Oil and Gas Local Permitting
California Environmental Quality Act Process – Recirculation**

Dear Interested Party,

You are receiving this letter as you are on the mailing list for notifications on the Amendments to the Title 19 – Kern Oil and Gas Local Permitting (2020-A) focused on Oil and Gas Local Permitting and the Draft Supplemental Recirculated Environmental Impact Report (SREIR) you received in August.

The department intends to revise and recirculate the Draft Supplemental Recirculated EIR for another 45-day comment period. Please note the following information.

- There will be **no** hearing in November at the Planning Commission and no hearing has been scheduled yet for the Board of Supervisors.
- A new Planning Commission date for a hearing in 2021 will be provided in the Notice of Availability released for the recirculated document and later noticed as required by law.
- The anticipated schedule for release of the revised and recirculated Supplemental Recirculated EIR is no later, and may be sooner, than the first week in November.
- The Notice of Availability for this mailing list, that you will be receiving, will include a thumb drive that contains the full document for review and comment. It will also be posted on the Planning and Natural Resources website at (www.kernplanning.com)

Thank you for your interest in this project. Questions may be sent to Cindi Hoover, Lead Planner at hooverc@kerncounty.com).

Sincerely,

Lorelei H Oviatt
