Project Title: Standby Power Generation System Upgrade Project

Project Applicant: Union Sanitary District

Project Location (include county): Alvarado WWTP, Union City, Alameda County

Project Description: The approved Project evaluated in the original IS/NMD included two minimum rated 3.5-megawatt (MW) standby engine generators, with room for two future engine generators, with associated electrical equipment. Since that time, electrical load projections for the Alvarado WWTP have decreased significantly due to a new strategy for planned treatment process upgrades. The modified Project scope, addressed in the Addendum to the IS/MND, has been reduced to include three 2.5 MW generators with room for one future engine generator and a reduced construction footprint.

This is to advise that the Union Sanitary District has approved the above
