Project Description: (please use a separate page if necessary)

The revised Addendum addresses revisions to a December 2019 Addendum on the Project. These changes include modifications to the site plan, further reductions in the construction footprint, as well as refinements in the Mitigation Monitoring and Reporting Plan. The Project still includes three 2.5 MW engine generators with room for one future generator, in lieu of 3.5 MW generators, to supply reliable standby power for the Alvarado Wastewater Treatment Plant.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
