## 1.0 EXECUTIVE SUMMARY

An Environmental Site Assessment - Phase I Update Report was prepared for the subject property located at 13400-13450 West Maxella Avenue and 4305-4363 South Glencoe Avenue, Los Angeles, California 90292. The scope of work for the Phase I Update meets ASTM E 1527-13 *Standard Practice for Environmental Site Assessments*. The purpose of the Phase I report is to provide information regarding the potential for hazardous material impacts to the soil and groundwater beneath the subject property. Such threats or material threats are identified in this report as Recognized Environmental Conditions (RECs). The presence of Historical Recognized Environmental Conditions (HRECs) and Controlled Recognized Environmental Conditions (CRECs) was also evaluated. The extent of this evaluation in conjunction with owner/client-supplied data is intended to satisfy the requirements of all appropriate inquiry into the previous ownership and uses of the property. The scope of the work included a site reconnaissance, research of land use records and other sources for preliminary indications of hazardous material use, storage, or disposal at the property and/or on contiguous parcels. Redevelopment of the site is proposed.

The subject property is located on the south side of Maxella Avenue between Glencoe Avenue and Lincoln Boulevard, in City of Los Angeles, California. The current street addresses for the property are 13400 through 13450 West Maxella Avenue and 4305 through 4363 South Glencoe Avenue. According to the Los Angeles County Tax Assessor's office, the Assessor's Parcel Number (APNs) for the subject property are 4212-004-015 and 4212-004-021.

The subject property consists of two (2) contiguous irregular-shaped parcels of land that encompass approximately 6.8 acres. The property is currently developed as a shopping center that includes three (3) structures. The structure addressed as 4325 Glencoe Avenue was constructed in 1973. The structures addressed as 13400 and 13450 Maxella Avenue were constructed in 1977. The buildings are occupied by commercial tenants including restaurants, retail shops, a coffee shop, and a movie theater. The remainder of the property is asphalt-paved with associated landscaping. Access to the property is via Maxella Avenue to the northwest and Glencoe Avenue to the northeast.

It is proposed to redevelop the site with a mixed-use project. Two (2) development options (A and B) are currently contemplated for the subject property. Option A proposes three (3) seven-story buildings that would include 658 multi-family residential units and up to 27,300 square feet of commercial space. Option A would include two (2) subterranean parking levels and two (2) above-grade parking levels located within each of the proposed buildings. Option B proposes the development of 425 multi-family residential units, 90,000 square feet of office space, and 40,000 square feet of commercial space. As with Option A, the proposed multi-family residential, office, and commercial uses would be provided within three (3) buildings. The proposed multi-family residential buildings would be comprised of seven stories, while the office building would include four stories. The proposed commercial uses would be provided at the ground floor of the buildings. The proposed uses would be supported by two (2) subterranean parking levels and one (1) at-grade parking level.

Historical site utilization research indicates that the subject property was undeveloped from at least 1896 until the early 1970s. Historical aerial photograph research indicates that the subject property was undeveloped from at least 1928 through 1963. The subject property appeared in its current configuration by 1977. Historical city directories indicate primarily commercial tenant listings.

The subject property is identified on the standard environmental government sources researched in this report. The Villa Marina Market Place is listed on the CA HAZNET and CA HWTS databases for generating 3.37 tons of asbestos containing waste, 0.2 tons of unspecified organic liquid mixture, and 0.3 tons of organic solids with halogens between 1993 and 1995. Building permit records indicate multiple units were remodeled in the 4325 Glencoe Avenue structure during that time period. The generation of the wastes is assumed to be attributed to the remodeling activities and is considered unlikely to have impacted the subject property subsurface. No USTs were found associated with the subject property.

The nearest listed contaminated site to the subject property is located approximately 200 feet to the east on the southwest corner of the Glencoe Avenue and Mindanao Way. This offsite property is occupied by USA Gasoline Corporation #98. A gasoline release impacting soil and groundwater was discovered on February 3, 1989 and a case was opened with the LAFD. No documentation was found that indicates any testing beneath or around the gas station was conducted prior to case closure on January 14, 1997. The case was reopened on May 16, 2000. In October 2011, three (3) single-walled 12,000-gallon USTs, located west of the pump islands were removed from the site and two double-walled 20,000-gallon USTs were installed northeast of the pump islands. During the UST upgrade activities, approximately 1,929 cubic yards of impacted soil was removed from the site. In March 2012, the case was referred to the RWQCB. In June 2013, one groundwater extraction well and four groundwater monitoring wells were installed. The case is undergoing final closure review by the LARWQCB as of November 2016. Impact to the subject property from this offsite property is considered unlikely because the subject site is up-gradient from the release. The groundwater gradient is towards the south-southeast away from the subject site.

A second release site is located to the west-southwest at 4300 Lincoln Boulevard, approximately 400 feet from the subject property. An active 76 Station occupies this offsite property. A leak impacting groundwater was first reported in 1988 with concentrations of MTBE in groundwater up to 1,800 µg/L. The case was closed on June 18, 1997. In March and April 2009, five monitoring wells were installed. The groundwater monitoring wells were sampled from 2009 through April 2012. During the April 2012 sampling event, TPHg, benzene, MTBE, and TBA concentrations were reported up to 910 µg/L, 58 µg/L, 140 µg/L, and 83 µg/L, respectively. The site was issued case closure by the RWQCB on September 19, 2012. Impact to the subject property is considered unlikely because the subject property is up-gradient from the release.

A historical solvent (PCE) release site is located to the north-northwest at 4144 Glencoe Avenue, approximately 1,200 feet from the subject property. This offsite property was formerly occupied by Cornell-Dubilier Electronics Division, which operated from 1955 through 1971. During a 1988 investigation of this offsite property, elevated concentrations of PCBs, TCE, and PCE were detected in the site soils up to 2,910 mg/kg, 130 mg/kg and 2,100 mg/kg, respectively. PCBs, TCE, and PCE were also detected in groundwater beneath the site up to 2,100 µg/L, 110,000 µg/L, and 1,300 µg/L, respectively. Extensive soil and groundwater investigations at the offsite property resulted in a DTSC approved Remedial Action Plan dated February 2006. As of 2015, DTSC has determined permanent groundwater monitoring wells are necessary in the down-gradient direction to monitor VOCs due to the presence of PCE and TCE concentrations in the dewatering system located in the Marina Marketplace at 13455 Maxella Avenue. The subject site is located down gradient of this release. Therefore, it is considered probable that the groundwater beneath the subject property has been impacted (PCE) from this offsite release.

The subject parcels are within the LA City Methane Buffer Zone. Carlin Environmental Consulting (CEC) performed a methane investigation at the subject property during February 2017 in accordance with the LA City Methane testing requirements. Eleven soil gas probes were placed and tested for methane gas over a two-day

period. Low concentrations of methane (20-1050 ppmV) were detected in soil gas. The CEC testing report determined that a methane mitigation system is not required for the property.

A second potential source for vapor intrusion is the regional VOC (PCE/TCE) release to groundwater associated with Cornell-Dubilier Electronics Division located up gradient of the subject site. The potential for vapor intrusion caused by degassing of VOCs from impacted groundwater can be mitigated by incorporation of a VOC barrier within the required waterproofing membrane for the future subterranean garage levels.

California Environmental has prepared an Environmental Site Assessment - Phase I in conformance with the scope and limitations of ASTM 1527-13 for the property located at 13400-13450 West Maxella Avenue and 4305-4363 South Glencoe Avenue, Los Angeles, California 90292. One (1) data failure was encountered during the preparation of this report. The LAFD has not responded to our request for records. The inactive hazardous materials file maintained by the LAFD for former tenant United Artists, located at 4335 Glencoe Avenue from at least 1985 through 2008, is likely associated with the storage and maintenance of movie reels and is not considered an environmental concern. The LAFD file will be forwarded once received. A Preliminary Title Report prepared by Ticor Title dated August 14, 2014 for the property was reviewed by CE. No environmental liens or environmental activity use limitations (AULs) were identified in the document.

**The presence of VOCs in shallow groundwater from an offsite up-gradient location is considered a Recognized Environmental Condition (REC). The identified REC can be mitigated by the use of a VOC membrane incorporated into the required waterproofing system. No historical recognized environmental conditions (HRECs) or controlled recognized environmental conditions (CRECs) were identified in connection with the subject property.** Due to the date of construction of the subject buildings in 1973 and 1977, CE recommends an asbestos/lead survey be conducted prior to renovation or demolition of the subject buildings. A provision for treating groundwater impacted with VOCs should be made during the future construction dewatering process.

## 2.0 INTRODUCTION

The following report presents the findings of the Environmental Site Assessment - Phase I prepared for the subject property located at 13400-13450 West Maxella Avenue and 4305-4363 South Glencoe Avenue, Los Angeles, California 90292. The scope of the Phase I study meets ASTM E 1527-13 *Standard Practice for Environmental Site Assessments* and included research of available land use records and other sources for preliminary indications of hazardous material use, storage or disposal at the property. The findings of this study are intended to provide information to the client regarding potential hazardous material impacts to the soil and groundwater beneath the site.

The scope of the investigation was conducted in general accordance with ASTM Standard Practice for Environmental Site Assessments – Phase I, Environmental Site Assessment Process ASTM E 1527-13. The steps outlined in this process are intended to permit a user (client) to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide purchaser limitations on CERCLA liability. Specifically, this report along with certain obligations of the client, constitutes All Appropriate Inquiry (AAI) into the previous ownership and uses of the property consistent with the standard of care as practiced in this area by environmental professionals. A main component of the assessment is to identify recognized environmental conditions, controlled recognized environmental conditions, and historical recognized environmental conditions, as they may affect the subject property. As defined by ASTM E 1527-13, a recognized environmental condition (REC) means *“the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property.”* A controlled recognized environmental condition (C-REC) is defined as *“a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required*

*controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).” An historical recognized environmental condition (HREC) is defined as “a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).”*

An important component of complying with the ASTM E 1527-13 Standard is information to be obtained or in the possession of the client and/or seller of the property. Such information includes obtaining and review of a recent title report, any specialized information regarding the site or surrounding area which may give rise to identification of a recognized environmental condition, and/or reasons given by the seller should the purchase price be significantly lower than what would be reasonably expected for a property of similar size and value. Often a real estate appraiser is commissioned to evaluate the purchase or sale price of a property. Such an appraisal is outside the scope of this Phase I Assessment report.

The independent conclusions represent California Environmental’s (CE) professional judgment based on the conditions that existed and the information and data available during the course of the study. Factual information regarding operations, conditions, and test data provided by the client, the owner or their representatives have been assumed to be correct and complete. This report includes **CONCLUSIONS AND RECOMMENDATIONS**, which together with the remainder of this report are subject to the **NOTICE** at the end of the report. **This report was prepared for the sole use and reliance by the client as identified on the title page of this report. Use of this report by other entities is expressly forbidden unless the client and CE grant permission.**

## 3.0 SITE DESCRIPTION

### 3.1 LOCATION AND LEGAL DESCRIPTION

The subject property is located on the south side of Maxella Avenue between Glencoe Avenue and Lincoln Boulevard, in City of Los Angeles, California; see **FIGURE 1 - VICINITY MAP**. The current street addresses for the property are 13400 through 13450 West Maxella Avenue and 4305 through 4363 South Glencoe Avenue. According to the Los Angeles County Tax Assessor's office, the Assessor's Parcel Number (APNs) for the subject property are 4212-004-015 and 4212-004-021. A Preliminary Title Report prepared by Ticor Title dated August 14, 2014 for the property was reviewed by CE. No environmental liens or environmental activity use limitations (AULs) were identified in the document.

### 3.2 DESCRIPTION OF PROPERTY / PROPOSED PROJECT

The subject property consists of two (2) contiguous irregular-shaped parcels of land that encompass approximately 6.8 acres. The property is currently developed as a shopping center that includes three (3) structures. The structure addressed as 4325 Glencoe Avenue was constructed in 1973. The structures addressed as 13400 and 13450 Maxella Avenue were constructed in 1977. The buildings are occupied by commercial tenants including restaurants, retail shops, a coffee shop, and a movie theater. The remainder of the property is asphalt-paved with associated landscaping. Access to the property is via Maxella Avenue to the northwest and Glencoe Avenue to the northeast.

It is proposed to redevelop the site with a mixed-use development. Two (2) development options (A and B) are currently contemplated for the subject property. Option A proposes three (3) seven-story buildings that would include 658 multi-family residential units and up to 27,300 square feet of commercial space. Option A would include two (2) subterranean parking levels and two (2) above-grade parking levels located within each of the proposed buildings. Option B proposes the development of 425 multi-family residential units, 90,000 square feet of office space, and 40,000

square feet of commercial space. As with Option A, the proposed multi-family residential, office, and commercial uses would be provided within three (3) buildings. The proposed multi-family residential buildings would be comprised of seven stories, while the office building would include four stories. The proposed commercial uses would be provided at the ground floor of the buildings. The proposed uses would be supported by two (2) subterranean parking levels and one (1) at-grade parking level.

### **3.3 GEOLOGY AND HYDROGEOLOGY**

The subject property is located approximately 0.87 miles northwest of the Ballona Gap in the southern portion of the Santa Monica Groundwater Basin. The site is underlain by silt, sand, and gravel deposits of fluvial origin. The regional direction of groundwater flow is towards the south-southwest. The Marina del Rey Harbor is approximately 1,500 feet to the southwest and the Pacific Ocean is approximately 1.6 miles southwest of the subject property. Historical groundwater elevation data from nearby sites and onsite borings indicate the depth to groundwater beneath the site ranges from 5-17 feet bgs.

The Los Angeles County Department of Public Works Hydrological Records Division maintains well information for the County of Los Angeles. The nearest well to the subject property is well no. 1251V located on the north side of Princeton Drive, between Jefferson Way and Thatcher Avenue, approximately 1,500 feet west of the site. The most recent well measurement on October 15, 2008 showed depth to groundwater to be 8.80 feet below ground surface. More recent groundwater data was obtained from technical reports in the Geotracker file maintained by the RWQCB for the 76 Unocal Gas Station located approximately 400 feet to the southwest of the subject property. Groundwater data from April 26, 2012 for this offsite facility indicates a depth to groundwater ranging from 14.61 – 15.99 feet below ground surface with a groundwater gradient to the south-southeast.

## 4.0 BACKGROUND INFORMATION

### 4.1 PREVIOUS WORK

LFR Incorporated (LFR) prepared a Phase I Environmental Site Assessment Report dated June 23, 2006 for the Villa Marina Marketplace, which includes the subject property parcels. The Phase I report was prepared using the ASTM 1527-2000 standard. The report provides a summary of a site reconnaissance and related interviews, historical and current maps, historical aerial photographs, the environmental setting, and recommendations. The LFR assessment identified recognized environmental conditions (RECs) associated with the subject property, including TPH and/or VOC impacted groundwater from offsite sources that underlies the site, and that the site is located within a Methane Zone. LFR concluded that any renovations to the subject property that involve the removal of foundation pads will need to follow the appropriate methane mitigation protocols.

California Environmental (CE) prepared report titled, *Environmental Site Assessment – Phase I*, for the subject property dated September 2016. The Phase I report was prepared using the ASTM 1527-2013 standard. The report provides a summary of a site reconnaissance and related interviews, historical and current maps, historical aerial photographs, the environmental setting, and recommendations. CE concluded that the likely presence of VOCs in groundwater beneath the site is considered an environmental concern that requires additional assessment to determine if the offsite release rises to the level of a REC. The subject property is also located within a Methane Zone/Methane Buffer Zone that constitutes a REC. No evidence of Controlled Recognized Environmental Conditions (C-RECs) or Historical Recognized Environmental Conditions (H-RECs) was identified in connection with the subject property. CE recommended subsurface testing to evaluate for the presence and concentrations of methane and VOCs in the areas of the proposed future structures. CE also recommended an asbestos survey be conducted prior to renovation or demolition of the subject buildings.

**4.2 SITE UTILIZATION HISTORY**

**4.2.1 Historical City Directories**

EDR Company was contacted to research historical city directories for the subject property and adjacent sites. The city directories were reviewed at approximately five-year intervals spanning from 1920-2013. A summary of city directories reviewed for the subject property is included in **TABLE I**. The EDR City Directory is attached in **APPENDIX II**.

#### 4.2.3 Historical Fire Insurance Maps

There is no Sanborn historical fire insurance map coverage for the subject property. The EDR response letter is included in **APPENDIX II** of this report.

#### 4.2.4 Historical Topographic Maps

Historical USGS topographic maps were provided by EDR Company and from online database sources. Maps covering the subject property for nine (9) time periods were found. Topographic maps indicate the subject property was undeveloped and located adjacent to the Ballona Wetlands area from at least 1896 through 1972. The Marina del Rey harbor appears developed in the 1966 topographic map. The property appears developed and located in an area of dense urban development since at least 1981.

### **4.3 RECORDS REVIEW INFORMATION**

#### 4.3.1 Building Information

The City of Los Angeles Department of Building and Safety online database was reviewed for building permits and Certificates of Occupancies associated with the property. Building permits for “new construction” were issued for 4325 Glencoe Avenue on January 18, 1973 and November 26, 1974. Certificates of Occupancy for 4325 Glencoe Avenue, issued between 1977 and 2016, indicate commercial tenants have historically occupied the structures. Copies of the permits are included in **APPENDIX III**.

#### 4.3.2 Underground Storage Tank & Hazardous Materials Research

The City of Los Angeles Fire Department (LAFD) publishes lists of records for active and inactive underground storage tanks (USTs) and hazardous materials inventories within the City of Los Angeles. The LAFD maintains an inactive hazardous materials file for United Artist Theater – Marina del Rey 6, a former tenant at 4335 Glencoe Avenue (currently AMC Theater). The LAFD has not yet responded to the request for the inactive hazardous materials file. The files will be forwarded once received.

#### 4.3.3 State Regulatory Agency File Review

The State of California Department of Toxic Substances Control (DTSC) Envirostor online database and the California Regional Water Quality Control Board – Los Angeles Region (RWQCB) GeoTracker online database were reviewed for any information they may have regarding soil, water or air contamination at the subject property. The subject property is not listed on the databases researched for this report.

#### 4.3.4 LACFD-HHMD and SCAQMD File Review

An online request for records was made with the Los Angeles County Fire Department – Health Hazardous Materials Division (LACFD-HHMD) for any information they may have regarding soil, water or air contamination at the subject property. Responses from the LACFD-HHMD indicate that no files are maintained for the subject property's addresses. The agency responses are included in **APPENDIX IV**.

The SCAQMD online FIND database was researched for any active and/or inactive records related to the subject property. A review of the SCAQMD Facility Information Detail (FIND) database indicates that records are maintained for the subject property addresses. No notices of violations or notices to comply were noted in the files reviewed. The SCAQMD records are included in **APPENDIX IV**. The SCAQMD records are summarized below:

- Inactive permits to operate a natural gas charbroiler were issued to Adal Corporation (Baja Fresh) at 13424 Maxella Avenue on October 26, 1995 and May 17, 2000.

- An inactive permit to operate a natural gas charbroiler was issued to former tenant Koo Koo Roo located at 4325 Glencoe Avenue on February 26, 2004.
- An inactive permit to operate a natural gas charbroiler was issued to former tenant Lean Chick Incorporated located at 4325 Glencoe Avenue on January 20, 1990.

#### 4.4 SITE DRIVE-BY

A drive-by of the area within one-quarter mile of the property was conducted to help identify nearby sites that possibly use, store, or generate hazardous materials. The area surrounding the subject property consists of commercial and residential properties. No service stations are located on the properties adjacent to the subject property. A list of selected environmental risk sites identified within a one-quarter mile radius of the subject property is included in the **STANDARD ENVIRONMENTAL RECORDS SOURCES** section of this report.

#### 5.0 SITE RECONNAISSANCE

The site conditions were observed during a reconnaissance conducted by Gregory Buensuceso of California Environmental on August 26, 2020. California Environmental completed a Field Reconnaissance Checklist during the site reconnaissance. An Environmental Owner Questionnaire was completed by Nicholas Zaharov of DWS – RREEF Management L.L.C. An Environmental User Questionnaire was completed by David Powers of Sares-Regis Group. The Environmental Field Reconnaissance Checklist and Environmental Owner/User Questionnaires are included in **APPENDIX I**. The features described below are shown on the enclosed **FIGURE 2 - PLOT PLAN**. Photographs of the subject property are attached in the **ILLUSTRATIONS** section of this report.

## **5.1 DESCRIPTION OF THE PROPERTY**

The subject property consists of two (2) contiguous irregular-shaped parcels of land that encompass approximately 6.8 acres. The property is currently developed as a shopping center that includes three (3) structures. The structure addressed as 4325 Glencoe Avenue was constructed in 1973. The structures addressed as 13400 and 13450 Maxella Avenue were constructed in 1977. The buildings are occupied by commercial tenants including restaurants, retail shops, a coffee shop, and a movie theater. The remainder of the property is asphalt-paved with associated landscaping. Access to the property is via Maxella Avenue to the northwest and Glencoe Avenue to the northeast.

## **5.2 ADJACENT PROPERTIES**

The subject property is bound to the northwest by Maxella Avenue with a commercial shopping center beyond, to the northeast by Glencoe Avenue with residential properties beyond, to the southeast by commercial properties with Mindanao Way beyond, to the south by Hotel MdR with the Marina Expressway beyond, and to the southwest by a mixed-use development with a 76 gas station and Lincoln Boulevard beyond.

## **5.3 TOPOGRAPHY AND DRAINAGE**

The subject property has a gentle slope towards the southwest. The topographic elevation of the subject property is approximately 19 feet above mean sea level. Drainage from the site is by sheetflow and concrete swales towards the adjacent streets. Standing water was observed outside of 4325 Glencoe Avenue Unit C-3. No evidence of surface drains, catch basins, or sumps or was observed on the subject property at the time of the site reconnaissance.

#### **5.4 PAST USES OF THE PROPERTY**

No evidence of the past use, treatment, storage, disposal or generation of hazardous substances was observed on the subject property at the time of the site reconnaissance.

#### **5.5 USE OF HAZARDOUS SUBSTANCES**

No evidence of significant hazardous substance use was observed on the subject property at the time of the site reconnaissance.

#### **5.6 STORAGE TANKS**

No evidence of existing aboveground or underground storage tanks, clarifiers, sumps, or grease interceptors was observed on the subject property at the time of the site reconnaissance.

#### **5.7 CONTAINERS OF HAZARDOUS OR UNIDENTIFIED SUBSTANCES**

No evidence of containers of hazardous or unidentified substances was observed on the subject property at the time of the site reconnaissance.

#### **5.8 SOLID WASTE DISPOSAL**

Numerous trash bins were observed throughout the property. A trash compactor was observed near the rear of 4365 Glencoe Avenue. No evidence of spills and/or staining was observed on the pavement beneath the bins or trash compactor. No other evidence of onsite disposal or landfill of solid waste material was observed on the subject property at the time of the site reconnaissance.

#### **5.9 POLY-CHLORINATED BIPHENYL'S (PCBs)**

Potential PCB-containing equipment observed on the subject property included three vaulted transformers. The transformers are owned and maintained by the Los Angeles Department of Water

and Power. The vaults were sealed by the utility company and were not accessible. The transformer vaults appeared to be in good condition with no evidence of leaks and/or spills observed on the pavement. In the event of a release of dielectric fluid from one of its transformers, the utility company typically performs the cleanup.

#### **5.10 HEATING/COOLING EQUIPMENT**

Heating and cooling equipment was not observed, as access to the roofs of the structures was not possible at the time of the site reconnaissance.

#### **5.11 ASBESTOS CONTAINING MATERIALS (ACM)**

Sampling of suspect asbestos containing material (ACM) was not included in the scope of work for this study. Due to the age of construction of the subject buildings in 1973 and 1977, it is recommended that a certified asbestos consultant prior to renovation or demolition of the subject buildings conduct an asbestos survey.

#### **5.12 WASTEWATER TREATMENT AND DISPOSAL SYSTEMS**

No evidence of wastewater treatment or disposal systems was observed on the subject property at the time of the site reconnaissance.

#### **5.13 RADON**

Radon hazard assessment was not included in the scope of this study. However, the EDR research report indicates the levels of radon at two (2) of twenty-five (25) sites located within the 90292 zip code in Los Angeles County exceeded four picoCurie per Liter (4 pCi/L), the Federal Action level.

#### **5.14 LEAD**

Sampling of suspect lead in paint was not included in the scope of work for this project. Lead content in paint was significantly reduced in 1977. Due to the date of construction of the subject buildings in 1973 and 1977, it is possible that lead based paint was utilized onsite. The paint coatings of the structures appeared in good condition at the time of the site reconnaissance.

#### **5.15 WELLS**

No evidence of dry wells, irrigation wells, injection wells, abandoned wells, monitoring wells or other wells was observed on the subject property at the time of the site reconnaissance.

#### **5.16 ODOR**

No evidence of strong, pungent or noxious odors was noted on the subject property at the time of the site reconnaissance.

#### **5.17 STRESSED VEGETATION**

No evidence of stressed vegetation was observed on the subject property at the time of the site reconnaissance.

#### **5.18 STAINING OR RESIDUE**

No evidence of significant staining or residue was observed on the subject property at the time of the site reconnaissance.

#### **5.19 PITS, PONDS, OR LAGOONS**

No evidence of pits, ponds, and/or lagoons was observed on the subject property at the time of the site reconnaissance.

## **5.20 POTABLE WATER SUPPLY**

Water is supplied to the subject property by the City of Los Angeles Department of Water and Power.

## **5.21 SEWAGE DISPOSAL SYSTEM**

The subject property is connected to the public sewage disposal system.

## **5.22 OTHER CONDITIONS OF CONCERN**

No other conditions of environmental concern regarding potential sources for soil and groundwater contamination were observed on the subject property at the time of the site reconnaissance.

# **6.0 NEARBY CONTAMINATED SITES**

## **6.1 LANDFILLS**

The Major Waste System maps for Los Angeles County, the Solid Waste Information Systems (SWIS), and the Waste Management Unit Database (WMUD) were reviewed to identify landfills and transfer stations located near the property. Map no. 184-117 and the EDR database report indicate that the former Thatcher Street (Facility ID: 19-AR-1217) processing and transfer station is located approximately 1,750 feet west-southwest of the subject property. The transfer yard processed and stored construction/demolition, inert, and mixed municipal waste. No active hazardous waste landfills are located within Los Angeles County.

## 6.2 OIL FIELD MAPS/METHANE HAZARD ZONES

The California Geologic Energy Management Division's (CalGEM) online mapping system (Well Finder) was researched to determine if oil production occurred on or near the subject property. The CalGEM Well Finder database indicates the subject property is located approximately 1,700 feet north of the Playa del Rey Oil Field. The database also indicates there are two (2) oil wells located within a 2,000-foot radius of the property.

The exploratory oil well (API 03705868) owned by Sharby Oil Company, located approximately 1,800 feet southeast of the subject property, is listed as plugged and inactive. The DOGGR file for the well was obtained for review. The well was spudded to a depth of 856 feet, then drilled to a total depth of 7,522 feet in July 1937. The well was abandoned on September 20, 1937 with mud followed by a cement plug from 876 feet to 818 feet due to lack of production.

The exploratory oil well (API 03705612) owned by Marathon Oil Company, located approximately 1,800 feet southwest of the subject property, is listed as plugged and inactive. The DOGGR file for the well was obtained for review. The well was spudded to a depth of 905 feet and drilled to a total depth of 6,210 feet in March 1929. The well was abandoned on May 30, 1929 with heavy mud followed by a steel cap welded on the top of the casing due to lack of production.

Parcels 4212-004-015 and 4212-004-021 of the subject property are located within the LA City Methane Buffer Zone as identified on the City of Los Angeles website (ZIMAS – Zone Information and Map Access System). Carlin Environmental Consulting (CEC) performed a methane investigation at the subject property during February 2017 in accordance with the City of Los Angeles methane testing requirements. Eleven (11) soil gas probes were placed and tested for methane gas over a two-day period. Low concentrations of methane (20-1050 ppmV) were detected in soil gas. The CEC testing report determined that a methane mitigation system is not required for the property.

### 6.3 STANDARD ENVIRONMENTAL RECORD SOURCES

In addition to the above records, agency database lists were reviewed for known or suspected contaminated sites and for sites which store, generate or use hazardous materials near the subject property. The subject property is identified on the standard environmental government sources researched in this report. The Villa Marina Market Place is listed on the CA HAZNET and CA HWTS databases for generating 3.37 tons of asbestos containing waste, 0.2 tons of unspecified organic liquid mixture, and 0.3 tons of organic solids with halogens between 1993 and 1995. Building permit records indicate multiple units were remodeled in the 4325 Glencoe Avenue structure during that time period. The generation of the wastes is assumed to be attributed to the remodeling activities and is considered unlikely to have impacted the subject property subsurface.

The nearest listed contaminated site to the subject property is located approximately 200 feet to the west on the southwest corner of the Glencoe Avenue and Mindanao Way. This offsite property is occupied by USA Gasoline Corporation #98. A gasoline release impacting soil and groundwater was discovered on February 3, 1989 and a case was opened with the LAFD. No documentation was found that indicates any testing beneath or around the gas station was conducted prior to case closure on January 14, 1997. The case was reopened on May 16, 2000. In October 2011, three single-walled 12,000-gallon USTs, located west of the pump islands were removed from the site and two double-walled 20,000-gallon USTs were installed northeast of the pump islands. During the UST upgrade activities, approximately 1,929 cubic yards of impacted soil was removed from the site. In March 2012, the case was referred to the RWQCB. In June 2013, one groundwater extraction well and four groundwater monitoring wells were installed. The case is pending closure as it is currently under review by the RWQCB. Impact to the subject property is considered unlikely due to the south-southeast groundwater gradient.

Another release site is located at 4300 Lincoln Boulevard approximately 400 feet to the west-southwest from the subject property. An active 76 Station occupies this offsite property. A leak impacting groundwater was first reported in 1988 with concentrations of MTBE in groundwater as high as 1,800 µg/L. The case regarding the release was closed on June 18, 1997. In March and April 2009,

five (5) monitoring wells were installed. The groundwater monitoring wells were sampled from 2009 through April 2012. During the April 2012 sampling event, TPHg, benzene, MTBE, and TBA concentrations were reported up to 910 µg/L, 58 µg/L, 140 µg/L, and 83 µg/L, respectively. The site was issued case closure by the RWQCB on September 19, 2012. Impact to the subject property is considered unlikely due to the south-southeast groundwater gradient.

A solvent release site is located at 4144 Glencoe Avenue approximately 1,200 feet to the north-northwest from the subject property. This offsite property was formerly occupied by Cornell-Dubilier Electronics Division, which operated from 1955 through 1971. During a 1988 investigation of this offsite property, elevated concentrations of PCBs, TCE, and PCE were detected in the site soils up to 2,910 mg/kg, 130 mg/kg and 2,100 mg/kg, respectively. PCBs, TCE, and PCE were also detected in groundwater beneath the site up to 2,100 µg/L, 110,000 µg/L, and 1,300 µg/L, respectively. Extensive soil and groundwater investigations of the offsite property resulted in a DTSC approved Remedial Action Plan dated February 2006. As of 2015, DTSC has determined permanent groundwater monitoring wells are necessary in the down-gradient direction to monitor VOCs due to the presence of PCE and TCE concentrations in the dewatering system located in the Marina Marketplace at 13455 Maxella Avenue. Therefore, it is likely that the groundwater beneath the subject property has been impacted by this offsite release.

The environmental sites listed on the databases researched for this report located within a one-half mile radius of the subject property are presented in **TABLE IV**.

## 6.4 POTENTIAL VAPOR ENCROACHMENT CONDITION (p-VEC)

The State of California has adopted the Vapor Intrusion Guidance document issued by CalEPA DTSC in October 2011. Potential sources for vapor intrusion to indoor air include degassing of solvents and other compounds from contaminated soil and contaminated groundwater. The subject parcels are

within the City of Los Angeles Methane Buffer Zone. A potential vapor intrusion condition (VI) associated with methane was evaluated at the property. Carlin Environmental Consulting (CEC) performed a methane investigation at the subject property during February 2017 in accordance with the LA City Methane testing requirements. Eleven (11) soil gas probes were placed and tested for methane gas over a two-day period. Low concentrations of methane (20-1050 ppmV) were detected in soil gas. The CEC testing report determined that a methane mitigation system will not be required for the property.

A second potential source for vapor intrusion is the regional VOCs (PCE/TCE) released to groundwater associated with Cornell-Dubilier Electronics Division located up-gradient of the subject site. The potential for vapor intrusion caused by degassing of VOCs from impacted groundwater can be mitigated by incorporation of a VOC barrier within the required waterproofing membrane for the future subterranean garage levels.

## **7.0 APPARENT PROBLEMS AND CONCERNS**

- The presence of VOCs in shallow groundwater from an offsite up-gradient location is considered a Recognized Environmental Condition (REC). The identified REC can be mitigated by the use of a VOC membrane incorporated into the required waterproofing system.
- No historical recognized environmental conditions (HRECs) or controlled recognized environmental conditions (CRECs) were identified in connection with the subject property.
- Due to the date of construction of the subject buildings in 1973 and 1977, CE recommends an asbestos/lead survey be conducted prior to renovation or demolition of the subject buildings.

## 8.0 CONCLUSIONS AND RECOMMENDATIONS

California Environmental has prepared an Environmental Site Assessment - Phase I in conformance with the scope and limitations of ASTM 1527-13 for the property located at 13400-13450 West Maxella Avenue and 4305-4363 South Glencoe Avenue, Los Angeles, California 90292. One (1) data failure was encountered during the preparation of this report. The LAFD has not responded to our request for records. The inactive hazardous materials file maintained by the LAFD for former tenant United Artists, located at 4335 Glencoe Avenue from at least 1985 through 2008, is likely associated with the storage and maintenance of movie reels and is not considered an environmental concern. The LAFD file will be forwarded once received. A Preliminary Title Report prepared by Ticor Title dated August 14, 2014 for the property was reviewed by CE. No environmental liens or environmental activity use limitations (AULs) were identified in the document.

**The presence of VOCs in shallow groundwater from an offsite up-gradient location is considered a Recognized Environmental Condition (REC). The identified REC can be mitigated by the use of a VOC membrane incorporated into the required waterproofing system. No historical recognized environmental conditions (HRECs) or controlled recognized environmental conditions (CRECs) were identified in connection with the subject property.** Due to the date of construction of the subject buildings in 1973 and 1977, CE recommends an asbestos/lead survey be conducted prior to renovation or demolition of the subject buildings. A provision should be provided for treatment of VOCs in groundwater associated with future dewatering activities

## 9.0 OPINION OF ENVIRONMENTAL PROFESSIONAL

All properties are subject to some element of environmental risk and the risk cannot be eliminated. Industrial and commercial properties developed prior to modern environmental laws are especially risk prone to environmental hazards which include, but are not limited to, wastes which may be toxic, ignitable, corrosive or reactive. The potential for these environmental hazards to impact the use of the property can be reduced by the identification and mitigation of the hazards prior to development or redevelopment of the property. Due to the difficulty in locating underground wastes, in some cases it is not always possible to ascertain that hazardous wastes are present on the property prior to development.

A Phase I environmental site assessment does not utilize subsurface exploration to check for the presence of hazardous wastes on the property. The experience of the assessor, along with the research of available reports, aerial photographs and land use records are used to evaluate the potential for hazardous wastes to occur on the site. Based on the information gained from the historical research, subsurface exploration may be recommended to check for the presence of hazardous wastes. Preexisting environmental problems such as the presence of hazardous wastes in the soil or groundwater, can be concealed by grading activities and site improvements. If such wastes are present these wastes cannot be observed.

The undersigned, Charles I. Buckley declares that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of 40 CFR 312 and I have the specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases on, at, in, or to a property, sufficient to meet the objectives and performance factors in §312.20.

This report was prepared with the skill and competence as commonly used by environmental professionals in this area. No warranty, expressed or implied, of any kind is made or intended in connection with this report, or by the fact you are being furnished this report, or by any other oral or written statement.

Should you have any questions or desire any additional information, please contact the undersigned.

RECONNAISSANCE CHECKLIST (PART A)**

Completed By: Gregory Buensuceso Title: Senior Geologist  
 Property Address: 13400 Maxella Avenue, Los Angeles, CA 90292 Date: August 26, 2020

<b>USES OF THE PROPERTY</b>	
1. Name of present occupants of the property (include business names and addresses or unit numbers):	See report.
2. Describe the present use(s) of the property:	Commercial – retail, restaurants, post office
3. Describe the present of adjacent properties:	Commercial, residential
4. Is the property used for an industrial use?	No
5. Is any adjoining property used for an industrial use?	No
6. Is the property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	No
7. Is the property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility?	No
8. Is any adjoining property used as a gasoline station, auto repair facility, commercial printing facility, dry cleaners, photo developing laboratory, or junkyard? If so, identify which and give the name of the business(es):	No
9. Is any adjoining property used as a landfill or a waste treatment, storage, processing, recycling, or disposal facility?	No
10. Is the property used for agricultural purposes?	No
<b>PROPERTY CONDITIONS</b>	
11. Are there or have there been any damaged or discarded industrial or automotive batteries on the property?	None observed.
12. Are there currently any solvents, paints, fuels, pesticides, herbicides, or other chemicals, in individual containers larger than 5 gallons or totaling more than 50 gallons, used on or stored at the property?	No
13. Are there currently any industrial drums (typically 55 gallons) or sacks of chemicals located on the property?	No
14. Is there any visible evidence fill dirt has been brought onto the property from a contaminated site?	No
15. Is there any visible evidence fill dirt has been brought onto the property from an unknown site?	No
16. Are there any waste treatment or waste disposal ponds, pits or lagoons on the property?	No
17. Is there any stained soil, or soil emitting unusual odors, on the property?	No

18. Are there any flooring, drains, or walls in the facility that are stained by substances other than water or have emitted unusual odors?	No
19. Is there heating and cooling equipment onsite?	Yes, but not observed
20. What is the fuel source for any onsite heating and cooling equipment?	Electricity and gas
21. Is there any visible evidence of storage tanks (underground or aboveground) at the property?	No
22. Are there currently or have there been any vent pipes, fill pipes, fill ports, or surface covers indicating possible fill ports on the property or adjacent to any building located on the property?	No
23. Is there visible evidence of geotechnical and/or environmental subsurface assessments such as patched borings or groundwater monitoring well covers?	No
24. Are there any oil wells, drilling sumps, mud pits, or oil pipelines on or adjacent to the property?	No
25. Are there any pipelines on, beneath, or adjacent to the property, other than water, sewer, and natural gas utilities serving the property?	No
26. Is the property known to be located in a methane hazard area due to oil fields, natural seepage, or landfill gas?	Yes, see report.
27. Does the property or any facility at the property produce wastewater other than domestic sewage and storm water runoff?	No
28. Are there any waste water treatment systems (clarifiers, oil/water separators, grease traps, filtration systems, etc.) at the property?	No
29. How is waste water from the property disposed of? Sanitary sewer. Septic system. Surface water. Pond, pit, sump, or well. Other (describe).	Sewer
30. Does the property or any facility at the property produce solid waste other than domestic trash and greenwaste?	No
31. How is solid waste from the property disposed of? Municipal or private trash service. Recycling. Onsite dumping or burial. Other (describe).	Trash service.
32. How is solid waste stored at the property?	Bins
33. Does the property or any facility at the property generate hazardous or special waste in the course of normal operation? Examples include spent solvents, photo processing waste, waste oil, used filters, etc. Provide copies of generator notification or waste manifests.	No
34. If hazardous or special wastes are generated at the property, how are they stored?	N/A

35. Are pesticides or herbicides stored, mixed, or disposed of on the property?	No
36. Are there any transformers, capacitors, or hydraulic equipment on the property that are known or suspected of containing PCBs?	See report.
37. Are there any building materials on the property known or suspected to contain asbestos? Please describe:	See report.
<b>ENVIRONMENTAL COMPLIANCE</b>	
38. Does the property or any occupant of or facility on the property have any licenses, permits, registrations, or notifications for tanks, pipelines, industrial waste, wastewater treatment, wastewater discharge, stormwater discharge, waste disposal, waste storage or treatment, air emissions, chemical use, or chemical storage?	No
39. Is there visible evidence of any spills, leaks, or other releases or threatened releases of any hazardous substances or petroleum products from the property to soil, groundwater, or surface water?	No
40. Is there visible evidence of any release or threatened release of any hazardous substances or petroleum products from another location to soil, groundwater, or surface water at the property?	No
41. Is there visible evidence of the current or past existence of environmental violations on the property or in any facility located on the property?	No
42. Does the property discharge waste water, other than storm water runoff, into a storm drain or onto adjacent properties or streets?	No
43. Does the property discharge waste water, other than storm water, into a sanitary sewer system?	No
44. Is there visible evidence that hazardous substances, petroleum products, unidentified waste materials, tires, batteries, or any other waste materials have been dumped, buried, or burned on the property?	No

## ENVIRONMENTAL FIELD INTERVIEW QUESTIONNAIRE (PART B)

Site Address: 13455 Maxella Avenue

California Environmental (CE) is asking the property owner, key site manager, and/or current user(s) of the subject property if any of the following helpful documents exist and, if so, CE requests a copy of such documents prior to the site walk. Please answer all questions on this 8 page questionnaire.

- Environmental site assessment reports ..... Yes✓ No
- Environmental compliance audit reports ..... Yes✓ No
- Environmental permits ..... Yes No
- Registrations for underground and aboveground storage tanks ..... Yes No✓
- Registrations for underground injection systems ..... Yes No✓
- Material safety data sheets ..... Yes No✓
- Community right-to-know plan ..... Yes No✓
- Safety plans ..... Yes No✓
- Reports regarding hydrogeologic conditions on the subject property or surrounding area. .... Yes No✓
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the subject property or relating to environmental liens encumbering the subject property ..... Yes No✓
- Hazardous waste generator notices or reports ..... Yes No✓
- Geotechnical studies ..... Yes✓ No
- Risk assessments ..... Yes No✓
- Recorded Activity and Use Limitations (AULs), such as a deed restriction or environmental liens. .... Yes No✓

California Environmental is asking the property owner, key site manger, and/or current user(s) of the subject property if they have any knowledge of the following:

- Any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property. .... Yes No✓
- Any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property. .... Yes No✓
- Any notices from any governmental entity regarding possible violations of environmental laws or possible liability relating to hazardous substances or petroleum products. .... Yes No✓

63. Do you have knowledge of any past, threatened, or pending lawsuits, enforcement actions, or administrative proceedings concerning the property.	No
64. If the property is served by a private well or a non-public water system, do you have any knowledge that contaminants exceeding applicable guidelines have been identified in the well or water system, or has the well or system been designated as contaminated by any governmental agency?	No
65. Does the property discharge waste water, other than storm water runoff, into a storm drain or onto adjacent properties or streets?	No
66. Does the property discharge waste water, other than storm water, into a sanitary sewer system?	No
67. Do you have any knowledge that hazardous substances, petroleum products, unidentified waste materials, tires, batteries, or any other waste materials have been dumped, buried, or burned on the property?	No

**USER QUESTIONNAIRE (PART C)**

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Action of 2001 (the “*Brownfields Amendments*”), the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that “*all appropriate inquiry*” is not complete.

The purpose of this section, defined in ASTM E1527-13, Section 6.1 *Users Responsibilities*, is to describe tasks to be performed by the user that will help identify the possibility of *recognized environmental conditions* in connection with the property. These tasks do not require the technical expertise of an *environmental professional* and are generally not performed by *environmental professionals* performing a *Phase I Environmental Site Assessment*. The purpose of this *User Questionnaire* is to assist the *environmental professional* in gathering information from the *user* that may be material to *identifying recognized environmental conditions*.

1. Are you aware of any environmental cleanup liens against the <i>property</i> that are filed or recorded under federal, tribal, state or local law?	No
2. Are you aware of any AULs, such as <i>engineering controls</i> , land use restrictions or <i>institutional controls</i> that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?	No
3. As the <i>user</i> of this ESA do you have any specialized knowledge or experience related to the <i>property</i> or nearby properties? For example, are you involved in the same line of business as the current or former <i>occupants</i> of the <i>property</i> or an adjoining <i>property</i> so that you would have specialized knowledge of the chemicals and processes used by this type of business?	I do not have any specialized knowledge of this property or nearby properties.
4. Does the purchase price being paid for this <i>property</i> reasonably reflect the fair market value of the <i>property</i> ? If you concluded that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the <i>property</i> ?	There is no purchase price. We are a third party developer providing redevelopment services for the property owner
5. Are you aware of commonly known or <i>reasonably ascertainable</i> information about the <i>property</i> that would help the <i>environmental professional</i> to identify conditions indicative of releases or threatened releases? For example, as <i>user</i> ,	No
a. Do you know the past uses of the <i>property</i> ?	No
b. Do you know of specific chemicals that are present or once were present at the <i>property</i> ?	No
c. Do you know of spills or other chemical releases that have taken place at the <i>property</i> ?	No
6. Do you know of any environmental cleanups that have taken place at the <i>property</i> ?	No
7. As the <i>user</i> of this ESA, based on your knowledge and experience related to the <i>property</i> , are there any obvious indicators that point to the presence or likely presence of contamination at the <i>property</i> ?	need to review past Phase I report

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2013. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: State Fund Policy Number: 1679229-05

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or was sent to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Due to the possible presence of lead-based paint, lead safe work practices are required on all repairs in pre-1979 buildings that disturb paint. Failure to do so could create lead hazards that violate California Health and Safety Code Section 17920.10 and Section 105256 and may be subject to a \$1000 fine or criminal prosecution. For more information call LA County's Department of Health Services at (800)524-5323. In order to locate a Lead Certified Professional and obtain additional information, call California DHS at (800)597-5323 or go to the DHS Website at <http://www.dhs.ca.gov/childlead/html/GENclist.html>.

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's name (if any): \_\_\_\_\_ Lender's address: \_\_\_\_\_

21. FINAL DECLARATION

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3:4 LAMC).

By signing below, I certify that:

- (1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration and Final Declaration; and
- (2) This permit is being obtained with the consent of the legal owner of the property.

**PERMIT EXPIRATION/REFUNDS:** This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

**17. LICENSED CONTRACTOR'S DECLARATION**

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B License No.: 760475 Contractor: S D DEACON CORP OF CALIFORNIA

**18. WORKERS' COMPENSATION DECLARATION**

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: ZURICH AMERICAN INS. CO. Policy Number: WC350459113

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

**WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.**

**19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING**

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at [www.aqmd.gov](http://www.aqmd.gov). Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or [www.dhs.ca.gov/childlead](http://www.dhs.ca.gov/childlead).

**PERMIT EXPIRATION/REFUNDS:** This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

**17. OWNER-BUILDER DECLARATION**

I hereby affirm under penalty of perjury that I am exempt from the Contractors' State License Law for the following reason (Section 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).):

I, as the owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his or her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year from completion, the owner-builder will have the burden of proving that he or she did not build or improve for the purpose of sale).

OR

I, as the owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.)

**18. WORKERS' COMPENSATION DECLARATION**

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: \_\_\_\_\_ Policy Number: \_\_\_\_\_

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

**19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING**

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at [www.aqmd.gov](http://www.aqmd.gov). Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or [www.dhs.ca.gov/childlead](http://www.dhs.ca.gov/childlead).

**20. FINAL DECLARATION**

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

**By signing below, I certify that:**

- (1) I accept all the declarations above namely the Owner-Builder Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, and Final Declaration; and
- (2) This permit is being obtained with the consent of the legal owner of the property.

**OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION**

**(OWNER-BUILDER DECLARATION)**

Application Number: X 14016-30000-24396

Project Address: 4325 S. Glencoe Ave Unit C-5

DIRECTIONS: Read and initial each statement below to signify you understand or verify this information.

- off 1. I understand a frequent practice of unlicensed persons is to have the property owner obtain an "Owner-Builder" building permit that erroneously implies that the property owner is providing his or her own labor and material personally. I, as an Owner-Builder, may be held liable and subject to serious financial risk for any injuries sustained by an unlicensed person and his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an Owner-Builder and am aware of the limits of my insurance coverage for injuries to workers on my property.
- off 2. I understand building permits are not required to be signed by property owners unless they are responsible for the construction and are not hiring a licensed Contractor to assume this responsibility.
- off 3. I understand as an "Owner-Builder" I am the responsible party of record on the permit. I understand that I may protect myself from potential financial risk by hiring a licensed Contractor and having the permit filed in his or her name instead of my own.
- off 4. I understand Contractors are required by law to be licensed and bonded in California and to list their license numbers on permits and contracts.
- off 5. I understand if I employ or otherwise engage any persons, other than California licensed Contractors, and the total value of my construction is at least five hundred dollars (\$500), including labor and materials, I may be considered an "employer" under state and federal law.
- off 6. I understand if I am considered an "employer" under state and federal law, I must register with the state and federal government, withhold payroll taxes, provide workers' compensation disability insurance, and contribute to unemployment compensation for each "employee." I also understand my failure to abide by these laws may subject me to serious financial risk.
- off 7. I understand under California Contractors' State License Law, an Owner-Builder who builds single-family residential structures cannot legally build them with the intent to offer them for sale, unless all work is performed by licensed subcontractors and the number of structures does not exceed four within any calendar year, or all of the work is performed under contract with a licensed general building Contractor.
- off 8. I understand as an Owner-Builder if I sell the property for which this permit is issued, I may be held liable for any financial or personal injuries sustained by any subsequent owner(s) that result from any latent construction defects in the workmanship or materials.
- off 9. I understand I may obtain more information regarding my obligations as an "employer" from the Internal Revenue Service, the United States Small Business Administration, the California Department of Benefit Payments, and the California Division of Industrial Accidents. I also understand I may contact the California Contractors' State License Board (CSLB) at 1-800-321-CSLB (2752) or www.cslb.ca.gov for more information about licensed contractors.

OWNER'S ACKNOWLEDGMENT AND VERIFICATION OF INFORMATION

(OWNER-BUILDER DECLARATION, cont.)

Application Number: 14016 - 30000 - 24396

Project Address: 4325 S. Glencoe Ave Unit C-5

*PJB* 10. I am aware of and consent to an Owner-Builder building permit applied for in my name, and understand that I am the party legally and financially responsible for proposed construction activity at the following address: 4325 S. Glencoe Ave Unit C-5.

*PJB* 11. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern Owner-Builders as well as employers.

*PJB* 12. I agree to notify the issuer of this form immediately of any additions, deletions, or changes to any of the information I have provided on this form. Licensed contractors are regulated by laws designed to protect the public. If you contract with someone who does not have a license, the Contractors' State License Board may be unable to assist you with any financial loss you may sustain as a result of a complaint. Your only remedy against unlicensed Contractors may be in civil court. It is also important for you to understand that if an unlicensed Contractor or employee of that individual or firm is injured while working on your property, you may be held liable for damages. If you obtain a permit as Owner-Builder and wish to hire Contractors, you will be responsible for verifying whether or not those Contractors are properly licensed and the status of their workers' compensation insurance coverage. Before a building permit can be issued, this form must be completed and signed by the property owner and returned to the agency responsible for issuing the permit.

Note: A copy of the property owner's driver's license, form notarization, or other verification acceptable to the agency is required to be presented when the permit is issued to verify the property owner's signature.

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B License No.: 909711 Contractor: WELLBEING CONSTRUCTION INC

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: STATE COMP. INS. FUND Policy Number: 9137839

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at [www.aqmd.gov](http://www.aqmd.gov). Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or [www.dhs.ca.gov/childlead](http://www.dhs.ca.gov/childlead).

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any): \_\_\_\_\_ Lender's Address: \_\_\_\_\_

21. FINAL DECLARATION

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

- (1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and
- (2) This permit is being obtained with the consent of the legal owner of the property.

**PERMIT EXPIRATION/REFUNDS:** This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

**17. LICENSED CONTRACTOR'S DECLARATION**

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: C45 License No.: 897933 Contractor: DONG BANG SIGN

**18. WORKERS' COMPENSATION DECLARATION**

I hereby affirm, under penalty of perjury, one of the following declarations:

- I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.
- I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: \_\_\_\_\_ Policy Number: \_\_\_\_\_

- I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

**WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.**

**19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING**

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at [www.aqmd.gov](http://www.aqmd.gov). Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or [www.dhs.ca.gov/childlead](http://www.dhs.ca.gov/childlead).

**20. CONSTRUCTION LENDING AGENCY DECLARATION**

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any): \_\_\_\_\_ Lender's Address: \_\_\_\_\_

**21. FINAL DECLARATION**

I certify that I have read this application **INCLUDING THE ABOVE DECLARATIONS** and state that the above information **INCLUDING THE ABOVE DECLARATIONS** is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

**By signing below, I certify that:**

- (1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and
- (2) This permit is being obtained with the consent of the legal owner of the property.

PERMIT EXPIRATION/REFUNDS: This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inspection within 60 days of receiving a request for final inspection (HS 17951).

17. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: B License No.: 832993 Contractor: FULCRUM CONSTRUCTION INC

18. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance carrier and policy number are:

Carrier: STATE COMP. INS. FUND Policy Number: 9076957

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

19. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at (909) 396-2336 and the notification form at [www.aqmd.gov](http://www.aqmd.gov). Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or [www.dhs.ca.gov/childlead](http://www.dhs.ca.gov/childlead).

20. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any): \_\_\_\_\_ Lender's Address: \_\_\_\_\_

21. FINAL DECLARATION

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not authorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

- (1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and
- (2) This permit is being obtained with the consent of the legal owner of the property.

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal CERCLIS list***

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 07/29/2020 has revealed that there is 1 SEMS

### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/29/2020 has revealed that there are 2 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

### ***Federal RCRA CORRACTS facilities list***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 03/23/2020 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

## EXECUTIVE SUMMARY

### ***Federal RCRA generators list***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/23/2020 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/23/2020 has revealed that there are 16 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 03/23/2020 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 04/27/2020 has revealed that there are 9 CA ENVIROSTOR sites within approximately 1 mile of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/23/2020 has revealed that there are 245 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### ***EDR Exclusive Records***

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 3 EDR Hist Auto sites within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
