Project Title: Asbury Environmental Services dba World Oil Environmental Services (Formerly ASBURY ENVIRONMENTAL SERVICES – Chico) Hazardous Waste Facility Permit Renewal

State Clearinghouse Number: 1998109250

Project Location: 2549 Scott Ave., Chico, CA 95928

County: Butte County

Project Applicant: Rosemary Domino, Director Environmental Affairs, World Oil Environmental Services

Project Description: The California Department of Toxic Substances Control (DTSC) adopted an Addendum to the previous Negative Declaration and approved the renewal of the Asbury Environmental Services dba World Oil Environmental Services Standardized Hazardous Waste Permit (Permit). The Asbury Environmental Services dba World Oil Environmental Services Facility (Facility) is a storage and transfer facility for used oil, used antifreeze, oily water, and oily debris/oily solids, and operates under the current permit. The Facility Permit Renewal reauthorizes continued storage and transfer of used oil, used antifreeze, oily water, and oily debris/oily solids in one 10,206-gallon tank, one 1,092-gallon tank, and up to 275 gallons in containers for an additional ten years. All waste transfer and storage activities are conducted in secondary containment to prevent any waste from running off site. No new construction or expansion of any activities and operations from levels analyzed in the 1998 Final IS/ND are included as part of the permit renewal.

As Lead Agency under the California Environmental Quality Act (CEQA), DTSC approved the above-described project on May 18, 2021 and has made the following determinations:

1. The project will not have a significant effect on the environment.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were not made a condition of project approval.
4. A Statement of Overriding Considerations was not adopted for this project.
5. Findings were not made pursuant to the provisions of CEQA.
