Project Title: Strazzabosco Stream Crossings and Onstream Reservoir Project (Lake or Streambed Alteration Agreement No. 1600-2019-0775-R1)

Project Location: The project is located within the Navarro River watershed, approximately 3.5 miles northwest of the town of Philo, County of Mendocino, State of California; Section 35, T15N, R15W, Mt. Diablo Base and Meridian, in the Philo U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Number 026-295-16.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2019-0775-R1, pursuant to Section 1602 of the Fish and Game Code to Jason Strazzabosco. The project is limited to four encroachments (Table 1) for the use and maintenance of stream crossing infrastructure.

ID	Latitude/Longitude	Description
"Site 1"	39.1102, -123.4753	Use and maintenance of stream crossing. Culvert conveys flow to an onstream reservoir. Proposed work includes removal and disposal of sediment accumulating at the culvert inlet to promote unobstructed flow. Permittee shall ensure that necessary actions are taken to prevent channel erosion and ponding of water at the culvert inlet.
"Site 2"	39.1099, -123.4757	Use and maintenance of stream crossing. Crossing impounds a stream, forming a reservoir. Culvert conveys reservoir overflow.
"Site 3"	39.1105, -123.4767	Use and maintenance of stream crossing.
"Site 4"	39.1114, -123.4774	Use and maintenance of stream crossing.

The Notification discloses the use of two wells located at Lat/Long 39.1106, -123.4746 and 39.1114, -123.4748 respectively. These wells are presented as the primary source of irrigation water on the property. CDFW did not evaluate hydraulic connection of the wells to surface water, nor was a hydrogeologic evaluation prepared by a licensed geologist provided for CDFW review. The Notification also states that Sanchez Gardening and Landscaping makes approximately two- to three- 4,000-gallon water deliveries each week to supplement irrigation needs.

The Notification discloses an onstream reservoir located at approximately 39.1099, -123.4757, but proposes no diversion. CDFW could find no record of an Agreement authorizing the construction of this reservoir. The reservoir shall be subject to further evaluation by CDFW in coordination with State Water Resources Control Board Division of Water Rights. This Agreement authorizes no water diversion from the reservoir. Any proposed changes in the use of water from the reservoir will require a major amendment or separate Notification.

No other projects that may be subject to FGC section 1602 were disclosed. This Agreement does not retroactively permit any constructed reservoirs (including "ponds"), stream crossings, water diversions, modifications to riparian buffers, or other encroachments not listed in Table 1.

Determination: This is to advise that CDFW, acting as the Lead Agency / a Responsible Agency approved the above described project and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. A mitigated negative declaration / negative declaration was prepared for this project pursuant to the provisions of CEQA.
CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to Public Resources Code section 21081, subdivision (a).

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record related to the Lake or Streambed Alteration Agreement is available to the public for review at CDFW's regional office.
