The project or activity identified above is determined to be exempt from further environmental review requirements contained in the California Environmental Quality Act (CEQA).

EXEMPT STATUS:

REASONS TO SUPPORT EXEMPTION FINDING (attach if needed):

Pursuant to CEQA Guidelines Sec. 15301, Existing Facilities, an action at an existing facility, such as receiving a permit, is considered a Class 1 exemption if the action involves negligible or no expansion of an existing or former use. The proposed CUP would allow the sale of beer, wine, and distilled spirits for on-site consumption at a restaurant. The proposed CUP does not result in physical changes to the existing structure or environment because the CUP would not change the interior or exterior design of the building beyond what has been previously approved. Therefore, the proposed CUP qualifies for a Class 1 exemption (Sec. 15301) and no further environmental review pursuant to CEQA is required.
