**SUBJECT:** Filing of Notice of Determination pursuant to Public Resources Code section 21108

**State Clearinghouse Number:** 2003052021

**Project Title:**

Interstate 80 (I-80) Westbound Cordelia Commercial Vehicle Enforcement Facility Project (04-0A53T) (Lake or Streambed Alteration Agreement No. EPIMS SOL-51987-R3)

**Project Location (Solano):**

The I-80 Westbound Cordelia Commercial Vehicle Enforcement Facility (CCVEF) Project is located along Interstate 80 (I-80) area is located in the City of Fairfield and unincorporated Solano County, California, east of the unincorporated community of Cordelia (Exhibit A). The Project 144.61-acre site is located within the Fairfield South, California 7.5- minute United States (U.S.) Geological Survey (USGS) quadrangle and in the Wooden Valley Creek-Frontal Suisun Bay Estuaries (GPS Coordinates 38.23211, -122.11276).

**Project Description:**

The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement (EPIMS-SOL-51987-R3), pursuant to Fish and Game Code section 1602, the project Applicant, California Department of Transportation.

The proposed Project will construct a new Class B Facility (defined as an independent California Highway Patrol command facility), approximately 0.7 mile to the east of its current location (Exhibit A). The Project will construct two new off-ramps to the CCVEF, one directly from I-80 and the other from State Route (SR) 12, providing improved operations at the westbound SR 12/I-80 connector. A new I-80 on-ramp from the CCVEF will cross Suisun Creek. To facilitate this crossing, an existing pedestrian bridge will be removed, and a new free span bridge over Suisun Creek will be constructed. The new creek crossing will be composed of three precast concrete girders that clear span the creek, to support an on-ramp with shoulders, 4-foot inside and 8-foot outside, and one 12-foot travelled lane. The girders support a reinforced concrete bridge deck which is also cantilevered from the exterior girders. The girders are supported on abutments placed on each creek bank. The bridge abutments will be placed above top of bank and rock slope protection (RSP) will be placed around the bridge abutments above top of bank.

This is to advise that CDFW, acting as a Responsible Agency, approved the project described above on February 19, 2025 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the Mitigated Negative Declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).

**Notice of Determination**

---

- 3. Mitigation measures were made a condition of CDFW's approval of the project.
- 4. A Mitigation Reporting or Monitoring Plan was adopted by CDFW for this project.
- 5. A Statement of Overriding Considerations was not adopted by CDFW for this project.
- 6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The Mitigated Negative Declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as a Responsible Agency is available at CDFW's regional office.
