**LEAD AGENCY AND ENTITY CARRYING OUT PROJECT:** City of Brentwood (Applicant)

**RESPONSIBLE AGENCY APPROVING PROJECT:** State Water Resources Control Board  
(State Water Board)

**PROJECT LOCATION:** The Brentwood wastewater treatment plant (WWTP) is located in Contra Costa County at 2201 Elkins Way, in Brentwood, California.

**PROJECT DESCRIPTION:** The Project consists of modular expansion of new treatment unit processes including construction of the following components: A new oxidation ditch/rectangular activated sludge reactor near the two existing parallel oxidation ditches, new circular secondary clarifier including waste sludge and scum pumps adjacent to the existing clarifiers, new media filter unit to integrate with existing filter units, modifications of the disinfection process to meet National Pollutant Discharge Elimination System permit requirements, a potential biosolids drying system, and shop facilities.

This is to advise that the State Water Board made the following California Environmental Quality Act (CEQA) determinations and approved CWSRF financing on October 9, 2019 for the Project:

1. Determinations were made pursuant to the CEQA.
2. The State Water Board considered the Initial Study/Mitigated Negative Declaration (MND) as prepared by the Applicant for this Project.
3. A Mitigation Monitoring and Reporting Program was adopted by the Applicant for this Project.
4. Mitigation measures were made a condition of the Applicant's approval of the Project.
5. A Statement of Overriding Considerations was not adopted by the Applicant for this Project.
6. The Project will not have any adverse significant water quality effects.

This is to certify that the MND with comments and responses and record of funding approval for the Project are available to the general public at the State Water Board, Division of Financial Assistance at the above address.
