Present Land Use/Zoning/General Plan Designation:

Open Space and Rural Residential

Project Description: (please use a separate page if necessary)
The Inyo County Public Works Department proposes the Walker Creek Road Bridge Replacement Project, which would involve the replacement of County Bridge 48C0039 with a new bridge and would close the existing bridge to public vehicular traffic. The proposed project would also include the realignment of Walker Creek Road as it approaches the bridge in either direction. The proposed project is needed to improve bridge functionality and public safety. The existing bridge has been evaluated under the Federal Highway Administration's Highway Bridge Program and was classified as functionally obsolete according to the National Bridge Inspection Standards. The new bridge is structurally sound, meets modern structural and safety codes, and provides adequate vehicle access between U.S. Highway 395 and destinatons west of the Los Angeles Aqueduct.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Revised 2010
Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
