Project Title: Power Plant 1 and Power Plant 2 Transmission Line Conversion Project

Project Applicant: Los Angeles Department of Water and Power

Project Location (include county): Los Angeles County

Project Description:

The project would be located within a linear alignment in northwestern Los Angeles County that extends from Haskell Canyon to the community of Sylmar. The project would involve replacing 12-miles of an existing 115 kilovolt (kV) double circuit transmission line with a new 230 kV double circuit transmission line. The new 230 kV line would be strung with two 230-kV 3 phase circuits; however, only one circuit would be energized upon project completion. The proposed project would involve demolishing the existing 115 kV line and constructing an approximately 12-mile segment of 230 kV lines and associated transmission structures generally adjacent to the existing line.

This is to advise that the Los Angeles Department of Water and Power has approved the above (X Lead Agency or Responsible Agency)

described project on September 10, 2019 and has made the following determinations regarding the above described project (date)
