**Subject:** FW: Meeting today at Del Web in Hemet  
**Date:** Monday, August 22, 2016 7:37:58 AM

---

Good Morning All,

I spent about an hour on the phone with this Solera resident. She has concerns related to the project and concerns related to a neighboring farming activity. I have advised Ms. Clarkson that this are two separate issues. If the appropriate City staff can contact Ms. Clarkson regarding her concerns on the farming concerns.

Thank you,  
Carole

**Subject:** Meeting today at Del Web in Hemet

Dear Carol,

Hello, I will not be able to make the meeting today due to my work schedule and wanted to send you this email. Please send it on to your colleague in Code Enforcement. In terms of the proposed new development that is adjacent to our Del Web property I have these following concerns: #1. If that development's entrance is off Warren then we have potential problems in that Warren road is not wide enough to accommodate the amount of traffic from 650 homes; Warren is not often maintained (see it currently). Also, many seniors drive slowly down Warren which could result in people trying to go around them; #2. the Ho farm creates issues of dust (due to their farming practices), as well as their use of chemicals and manure which raises environmental concerns; #3. A new development also increases the use of water in an area where there is a shortage to begin with. Thank God the ho property is now in the hands of the City. I really appreciate you listening to my concerns when we last spoke. Perhaps I could talk with the gal who works for Code Enforcement. Could you help set this up? I look forward to hearing from you Carol.

Warmly,

Kathleen Clarkson
