Project Title: Addendum to the Avalon Freight Services Project Final IS/ND

Project Applicant: City of Los Angeles Harbor Department

Project Location (include county): Berth 95, San Pedro, Port of Los Angeles, County of Los Angeles

Project Description:

The proposed Project would upgrade the barge landing ramp at Berth 95 to fix the ramp design and improve barge access. Improvements to the ramp would allow Avalon Freight to utilize the ramp with the same frequency, but on a preferred schedule not dependent on tides. The barge landing ramp upgrades include demolition and removal of approximately 5,000 square feet of in-water concrete ramp, dredging and disposal of approximately 3,000 cubic yards of sediment, furnishing and placing approximately 850 tons of quarry run and rip rap, and casting in place of an approximately 400 square-foot concrete approach slab. The proposed modifications would create no potential adverse impacts or substantial changes to impact areas previously analyzed in the Final IS/ND.

This is to advise that the Los Angeles Harbor Department has approved the above
(Lead Agency)
described project on November 18, 2021 and has made the following determinations regarding the above
(date)
described project.

1. An Addendum to the Avalon Freight Services Initial Study/Negative Declaration, previously adopted by the Board of Harbor Commissioners on January 22, 2015, was prepared and considered for this project pursuant to the provisions of CEQA.
2. There have been no substantial changes in circumstances or new information that would warrant subsequent environmental analysis in accordance with §15164 of the State CEQA Guidelines.

This is to certify that the certified Final ND with comments and responses and record of project approval is available to the General Public at: portoflosangeles.org/environment/environmental-documents

Signature (Public Agency):  Title: Director of Environmental Mgmt.
