**NOTICE OF DETERMINATION
(Public Resources Code section 21108)**

A3143

SCH#: 2010024001

Item: 14

Title: Yuba River Basin, California Project - Marysville Ring Levee Project Phase 2B and 3 Utility Relocation

Proponent: Pacific Gas and Electric

Location: Sovereign land in the Yuba River, near Marysville, Yuba County. The project is located adjacent to the existing levee south of 1st Street, north and west of the Yuba River, and east of A Street, 12th Street, and Hwy 20.

Description: Levee improvements made under the Yuba River Basin, California Project – Marysville Ring Levee Project (MRL Project) were originally covered in the 2010 MRL Project Environmental Assessment/Initial Study/Mitigated Negative Declaration (EA/IS/MND) which recommended implementation in multiple phases. Phase 1 of the MRL Project was constructed from 2010 through 2012 and portions of Phase 4 were constructed from 2016 through 2017. To better facilitate design and construction, Phase 2 was further subdivided into Phase 2A North, 2A South, 2B, and 2C. A supplemental EA/IS/MND was prepared in 2019 to cover design refinements for Phases 2B and 3 (2019 Phases 2B and 3 Supplemental EA/IS/MND). The subject project was evaluated in the 2021 Phases 2B and 3 Utility Supplemental EA/IS/MND that describes refinements only for the utility relocation associated with Phases 2B and 3. The Proposed Project includes the relocation of existing Pacific Gas & Electric Company electric transmission and distribution lines, as well as gas transmission and distribution pipelines in Phase 2B and 3. The Proposed Project also includes the AT&T Inc. and Sprint Corporation installation of new utility structures both landward and waterward of the levee in Phase 3.

This is to advise that the California State Lands Commission, as Lead Agency Responsible Agency, approved the above-described project on February 25, 2022, and made the following determinations regarding the project.

- 1) The project will will not have a significant effect on the environment.
- 2) A Mitigated Negative Declaration (MND) was prepared for this project pursuant to the provisions of CEQA.
- 3) Mitigation measures were were not made a condition of the approval of the project.
- 4) A mitigation reporting or monitoring plan was or was not adopted for this project.
- 5) A Statement of Overriding Considerations was was not adopted for the project.
- 6) Findings were were not made pursuant to the provisions of CEQA.

The lead agency for the project, Central Valley Flood Protection Board (Board), adopted the Supplemental Mitigated Negative Declaration (MND) and Mitigation Monitoring and Reporting Program (MMRP) and approved the project on February 26, 2021. The California State Lands Commission has considered the MND as prepared for this project by the Board and adopted an independent MMP incorporating the Board's document. The MND and the record of project approval may be examined at the above shown California State Lands Commission Sacramento office address.
