

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Zone 4 Landfill Construction Projects and Source Separated Organics Recycling Facility

Lead Agency: Orange County Waste & Recycling

Contact Name: Kevin Gaxiola, Communications Specialist

Email: kevin.gaxiola@ocwr.ocgov.com Phone Number: (714) 834 - 4000

Project Location: Cities of San Juan Capistrano/San Clemente/ Unincorporated Orange County
City *County*

Project Description (Proposed actions, location, and/or consequences).

Orange County Waste & Recycling (OCWR) is the Lead Agency responsible for preparing a Supplemental Environmental Impact Report (SEIR) addressing potential environmental impacts associated with updates to the Prima Deshecha General Development Plan associated with the proposed Zone 4 Landfill Construction Projects and Source Separated Organics Recycling Facility (proposed project). The proposed project is located at on an approximately 1,530-acre site comprised of the following Assessor's Parcel Numbers (APNs): 124-081-22,-24,-26,-27; 124-140-42,-44,-46,-47,-48,-50,-52,-54, and -55; 124-101-05 and -06; 125-162-06; and 125-172-05. The Landfill is generally bounded by Stallion Ridge and State Route 74 to the North and Camino del Rio to the South. Avenida La Pata runs north-south through the Landfill property. The proposed Project includes the following components: (1) changes to the phasing of operations between Zone 1 and Zone 4 of the landfill to allow for concurrent operations; (2) blasting, excavation, on-site relocation, pulverizing into soil, soil stockpiling and off-site soil removal of hard rock material in Zone 4, referred to as the San Onofre Breccia area; (3) imported soil trips for liner installation that will occur for all future Zone 4 development phases; and (4) construction and operation of a Source Separated Organics (SSO) recycling facility.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Based on the Initial Study (IS) completed for the proposed Project, the County has determined that the proposed Project could result in impacts related to aesthetics, air quality, and noise. These topics will be analyzed in the SEIR. Mitigation will be developed and included in the SEIR, if necessary, to address the proposed Project's potentially significant adverse effects.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The project does not have any areas of controversy known to the Lead Agency. To provide an opportunity for public input, the City will be conducting a Scoping Meeting on July 30, 2020.

Provide a list of the responsible or trustee agencies for the project.

Responsible agencies for the project include the South Coast Air Quality Management District (SCAQMD) and the San Diego Regional Water Quality Control Board (RWQCB).

The California Department of Fish and Wildlife (CDFW) is a trustee agency for the project.
