SUBJECT: Filing of Notice of Determination pursuant to Public Resources Code section 21108

State Clearinghouse Number: 1985121114

Project Title: Lake Sherwood Sediment Management Project (Lake or Streambed Alteration Agreement No. 1600-2020-0094-R5)

Project Location (include county): The Lake Sherwood Sediment Management Project is located in the unincorporated community of Lake Sherwood in Ventura County, California. The project site can be located using the following information: USGS 7.5 Minute Quadrangle Map Names Newbury Park and Thousand Oaks, Township 1 North, Range 19 West, within portions of Sections 28, 32, 33 and 34. Assessor's Parcel Numbers: 6950290245, 6950260025, 6950260475, 6950290185, 6640030160, 6950420065 and 6950420055.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2020-0094-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sherwood Valley HOA, as represented by Tina Nakamura.

The whole of the project is to conduct routine maintenance of 6 debris basins and Carlisle Inlet within the Sherwood Valley HOA. The HOA plans to remove sediment, silt, and debris to provide sedimentation capacity and keep these materials from entering and filling up the lake. Most of the proposed work will utilize one long-reach excavator and one or two dump trucks to haul materials to deposition sites. In basins 3, 4 and the Carlisle Inlet, heavy equipment could potentially involve an excavator, amphibious excavator, bulldozer and other mechanical sediment removal equipment. Sediment will be removed from the basins and inlet on a case by case basis dependent upon sediment loads. The sediment will be moved out of the basins and stockpiled at two locations within HOA property. Deposition site #1 is located at the end of Ladbrook Way where it intersects Stafford Road. Deposition site #2 access is located at the intersection of Norfield Court and Melford Court. Vegetation will be minimally impacted at each basin and no native trees will be cut down.

This is to advise that CDFW, acting as a Responsible Agency, approved the above described project on October 17, 2022 and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will / will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the environmental impact report prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A statement of overriding considerations was / was not adopted by CDFW for this project.
6. Findings were / were not made by CDFW pursuant to California Code of Regulations section 15091.

The final environmental impact report prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as Responsible Agency is available at CDFW's regional office.
