Pages: 2
Fee: \$ 4101.25

By klopez, Deputy

To: Yolo County Clerk
625 Court Street
Woodland, CA 95695

Subject: Filing of Notice of Determination in compliance with Section 21152
of the Public Resources Code.

State Clearinghouse Number: 96012035, 2002062034

Project Title: Granite Capay Mining and Reclamation Permit Amendment (ZF2023-0024)

Applicant: Granite Construction Company
4001 Bradshaw Road
Sacramento, CA 95627

Owner: Granite Construction Company
4001 Bradshaw Road
Sacramento, CA 95627

Project Location: The project is located in an unincorporated area of Yolo County, at 15560 County Road 87, approximately 1.2 miles northeast of the unincorporated town of Esparto. (APN: 048-140-040, 048-220-018, 048-220-016)

Project Description:

Granite Construction Company owns and operates a permitted sand and gravel mine known as the Granite Capay Operation (State Mine Identification Number 91-57-0014). The Yolo County Board of Supervisors approved the project on November 25, 1996, allowing for off-channel mining on 359 acres over a 30-year period (expiration January 1, 2028) and operation of an on-site processing facility, with reclamation of the site to permanent lakes, habitat, and agriculture uses following the completion of mining activities. The Yolo County Board of Supervisors certified a project-level EIR in support of this approval (1996 Granite Capay EIR SCH #96012035). Subsequently, the County approved a major amendment to the Granite Capay approval on December 3, 2002, allowing for deeper off-channel mining on 312 acres on portions of three parcels over the same 30-year Mining Permit term with revised phasing. The Yolo County Board of Supervisors certified a Supplemental EIR (SEIR SCH#2002062034) in support of this approval (2002 Granite Capay SEIR). A maximum of 32.26 million tons can be mined and a maximum of 30.0 million tons can be sold from the Granite Capay operation over the term of the Mining Permit.

On October 20, 2023, Granite submitted an application requesting a 10-year extension to the current Mining Permit ("Project"). Specifically, the applicant requested modification to the text of Condition of Approval #5 of the Mining Permit to change the mining permit length from thirty (30) years to forty (40) years to account for the time anticipated to mine the remaining aggregate reserves at the site. The request extends the life of the permit, which is set to expire on January 1, 2028, by 10 years, to January 1, 2038, consistent with the original Permit's conditions of approval and Yolo County Code Section 10-4.426 (Permit Life).

This is to advise that the Yolo County Planning Commission has adopted an addendum to an Environmental Impact Report (SCH #96012035) and a Supplemental Environmental Impact Report (SCH #2002062034) for the above-described Project on November 14, 2024, and has made the following determinations:

1. The project will not have a significant effect on the environment or substantially increase the severity of a previously identified significant environmental effect.
2. Substantial changes in the circumstances under which the project would be undertaken that would result in new significant impacts or substantial increase in the severity of previously identified significant impacts are not present, and therefore no revisions to the analysis in the prior EIRs are required.
3. There is no new information of substantial importance that was not previously known at the time of the prior FEIRs that shows new significant impacts, substantially more severe significant impacts, previously dismissed

NOV 21 2024

POSTED _____ TO _____

mitigation measures or alternatives that are now feasible, or different more effective mitigation measures or alternatives that have emerged or become known are not present.

4. An Addendum is the appropriate level of environmental review pursuant to CEQA Guidelines section 15164 because some changes or additions are necessary to the previously-certified EIRs, but none of the conditions described in Section 15162 calling for preparation of a subsequent EIR have occurred.

This is to certify that the Addendum and record of project approval is available to the General Public for review at the Yolo County Community Services Department located at 292 W Beamer Street, Woodland, California 95695.
